with High-quality Fasteners  
and Fixings**

Taiwan Sourcing Service Provider

# Guide to E-magazine

## Content Sections

- CENS.com

Access to CENS.com for more information, industry news & reports.
- Online Product Index

Find quickly product categories of interest.
- Advertiser Index

Find easily suppliers of interest.
- Articles

Find here industry news, reports, and editorial articles.

## For details on suppliers & products

### Simply use hyperlink icons:

- Inquire Now

Click **Inquire Now** to safely, quickly connect to online inquiry form for the advertiser/supplier.
- Webpage

Click **Webpage** to connect to the introduction of the advertiser/supplier.

# Guide to PDF Reader

## How to edit display settings

Select “View >> Page Display” to edit the way you like to read E-magazine.

## How to save a new copy of this E-magazine

Press “Shift + Ctrl + S” or select the “Save” option, and confirm your selection by choosing “Save a copy”.

## How to text search

Press “Ctrl + F” and enter keyword(s). If no match is found, broaden the category of keyword(s). This search function works on exact match of keyword(s).

## How to use zoom options and move around an enlarged page

Click either   icon to zoom in or out a page.

“Hand Tool” enables moving around an enlarged page for reading convenience.

\* The above guidelines are based on Adobe Reader. When using other PDF reading software, check “Help” function to edit page display settings. If reading this PDF E-magazine via Chrome, Firefox or IE, enable Adobe Plug-in to improve viewing experience.  
Please feel free to comment regarding using this E-magazine by emailing: [buyerservice@cens.com](mailto:buyerservice@cens.com)

# INAFASTENER 2017 Allows for Easy Access to Indonesia's Vigorous Market for Fasteners

## Exhibition benefits from country's growing car production and civil construction

By STEVE CHUANG

Indonesia is the fourth most populous country in the world, and at the same time is one of the largest economies, agriculture, industry and service industry in the Association of South-East Asian Nations (ASEAN). The largest economic sector in Indonesia is manufacturing and processing, which contributes around 24% of the Gross Domestic Product and one of the local industries that have been on rapid growth is the fastener industry.

Driven by brisk car production coupled with growing construction spending as a result of the country's strong economic growth and continued industrialization, local market demand for fasteners is expected to continue to grow significantly over the next six years, especially after the Indonesian government announced in February, 2011 the construction of six economic corridors in the country as part of its 14-year vision economic development plan between 2011 and 2025.

Having been underway since February, 2012, Sumatra economic corridor projects include major infrastructure developments as the Java highway, connecting Jakarta and Surabaya, double-track railway and so on. These

projects will greatly boost the Indonesian fastener requirements, while stimulating domestic demand, not to mention ever more fasteners are needed in car production.

With fasteners increasingly needed in automotive, construction and machinery industries, the global market for fasteners is projected to show a compound annual growth rate of over 6% during 2014-2018.

Among the most promising driving force for the market are cars. As more than 100 million automobiles are predicted by many market observers, such as U.S.-based IHS Automotive, to be sold in 2018, an estimated US\$26.1 billion worth of automotive fasteners will be demanded then, to generate overall revenue of some US\$ 24,6 billion. It is not overstated that Asia Pacific has become

INAFASTENER 2017 will be held from March 29 to April 1, to continue to allow for access to the country's brisk fastener market.

world’s most important manufacturing base of fasteners, for it now commands a 39.8% share of total fastener production across the globe.

In the scenario, the first INAFASTENER was held in conjunction with INAPA 2016, IIBT 2016, INABIKE 2016, Tyre & Rubber Indonesia 2016 and Con-Mine 2016. The 6-in-1 format proved successful by attracting 1,003 exhibitors from 19 countries across the different sectors, and 25.920 attendees from over 31 countries in four days.

Exclusively dedicated to fasteners and fixing technologies, INAFASTENER will take place again on March 29 through April 1, 2017 at Jakarta International Expo (JIE expo) Kemayoran, Jakarta Indonesia. The exhibition will cover a wide product range of industrial fasteners and fixings, assembly and installation systems, storage and logistic services.

As part of the INAPA show, the second INAFASTENER will enable both buyers and sellers to network, learn and source new technologies and grow together with the industry, to reach new heights in their business status.

Highlights:

- Over 250 exhibitors from 25 countries
- he show will feature the latest design and technology of fastener, fixing technology, assembly and installation systems,
- Exclusive seminar by the Associations, Buyer Procurement Presentation and Technical Seminar

- The new innovation & solution for fastener and fixing technology.
- Business match making the opportunity for the exhibitors to meet the target. [CENS](#)

Exhibitor profile:

- Assembly and installation systems
- Auxiliary Equipment for Fastener making
- Construction fixing
- Fastener manufacturing equipment & technology
- Fastener mold and consumables
- Industrial fastener and fixing
- Information, communication and services
- Inspection and quality control machines
- Military fastener
- Screw, anchors, bolt and nut
- River & self clinching
- Stainless steel fastener
- Material, tools and measuring device
- Pin, nails, clamps
- Thread roads & Studs
- High Strength fastener
- Storage, distribution and factory equipment

# YEUN CHANG HARDWARE TOOL CO., LTD.

## Steel Concrete Nail, Screws, Rivet, Nail, Fastener

Established in 1987 as an efficient and sincere team of professionals who have been dedicated to producing quality products either locally or worldwide, we supply various nails and fasteners and have built a solid reputation as an authorized OEM supplier with several major global buyers. Our in-house brand, Thumb Brand, is renowned worldwide and has become a trademark of quality assurance, with over 50% of our sales coming from the Middle East. Also, to enhance production capacity, we set up a factory in Chang-Bin Industrial Park in Central Taiwan in 2000. Fully equipped to carry out manufacture, heat-treatment, finishing and packaging in-house, we adopt the latest testing instruments and employ seasoned technicians to meet quality r ...

# JIH SHENG SPRING CO., LTD.

## Springs, Custom Springs, Retaining Springs & Irregularly-Shaped Springs, Springs For Molds/Dies, Household Items

Established in 1997, Jih Sheng Spring Co., Ltd. has over 10 years of experience in making springs for electronics, electrical machinery, pneumatic/electric tools, automobiles, precision optical instruments, lighting products, hydraulic equipment, hardware (including locks), etc. Backed by advanced technology and innovative facilities, we now have two factories covering 86,400sq.ft. in total: one each focusing on precision spring manufacture and stamping hardware on straight-axle pneumatic presses. Well-equipped factories enable us to offer versatile processing services and prompt technical support. Using precision inspection instruments to ensure top quality, we became ISO 9001:2000 certified in January 2009.

# Helping Your Business **SPRING** into Action

## Also expertise in spring-related problems

Wave Spring & Coil Spring

Retaining Ring & Ordinary Snap Ring

### Wave Springs

Tapping wave springs' inherent high load capacity when used in tight spaces, we can develop such springs occupying less than half the volume than would coil springs used similarly.

### Spiral Retaining Rings

Earless (w/o assembly interference) and deburred inner and outer diameter, our retaining rings are easily installed and removed. Our stamping die retaining rings have ears w/assembly interference.

### Power Springs, Clock Spring

Made of roll-up steel straps, w/a fixed spring center in the middle of the shaft, and w/a housing to limit its outer diameter, our power/clock springs are divided into two categories: Typical & pre-stressed models. Our pre-stressed power springs have at least 25% higher torque than conventional springs-even though the designs of the two models are the same. Power springs (clock springs) are widely used in various auto-retracting mechanisms.

### Constant Force Springs

Featuring compactness and smooth, even but great load-carrying capacity in the effective travel according to spring length, our constant force springs are widely applied on LCDs, retractors, staple guns, fans, curtains, etc.
