Tons projects revenue to grow double-digits year-on-year in 2016. (Pictured is a corner of the National Palace Museum lit by the supplier's equipment)

By KEN LIU

Tons Lightology of Taiwan Predicts Double-digit Revenue Rise in 2016

Lighting maker Tons Lightology Inc. projects its revenue for 2016 to increase at double-digit rate year-on-year thanks to ambitious marketing plans, according to company chairman, S.C. Tang.

He says after having secured a stable market share in Taiwan last year, his company will step up sales in the mainland Chinese market this year as its top priority before

making a foray into the Japanese market as the next step. Its long-term goal is to enter the European lighting market.

Tons, reportedly the first publicly held lighting maker in Taiwan, made NT\$144 million (US\$4.36 million), or NT\$3.8 per share, in after-tax net income on revenue of NT\$1.30 billion (US\$39.60 million) throughout 2015. Both the revenue and earnings set fresh

all-time highs in the company's history. The company was established in 1992 and headquartered in Taiwan, with branch offices in the U.S., Japan and China, and made initial public offering on Taiwan's over-the-counter market in 2013.

The company's gross margin ratio rose 3.6 percentage points year-on-year to 31.9 percent last year mostly thanks to the devaluated NT-dollar-U.S.-dollar rate, optimized product mix and customer base, and its own-brand operation generating 15 percent of total revenue.

Its product mix is mainly composed of high intensity discharge (HID) lamps, light emitting diode (LED) lamps, fluorescent lamps, halogen lamps, and light fittings. Lighting fixtures generate some 80 percent of the company's revenue, with the remaining 20 percent by fittings.

Primarily, the company's lights, including recessed lights, ceiling lights, pendant lights, showcase lights, table lights, wall lamps, garden lights, sunken lights, and light bars, are designed to create required lighting effect for various places, such as museums, premium retail chains, luxury hotels, and exhibition centers.

Last year, the company won the contracts to furnish the Southern Branch of the National Palace Museum, the Chimei Museum (affiliated with the eponymous brand in Taiwan that provides home appliances, monitors, LED lighting and LED TV), and the

Chung Tai Chan Monastery with its lighting equipment, further building its profile and brand on the island.

According to Tang, his company alone won 90 percent of the five lighting contracts offered by the Southern Branch of the National Palace Museum, leaving the remaining 10 percent to a British subcontractor. He says there has been an influx of orders since winning the major contracts for the museum's southern branch.

Currently, the company depends on mainland China for 50 percent and Taiwan for 30 percent of revenue from branded operation. He says the mainland market is more than 10 folds bigger than the Taiwan market and will be the key driver of business in 2016. [CENS](#)

ETG Lighting Offers Wide-ranging LED Commercial Lighting

ETG Lighting Co., Ltd. is a commercial-lighting manufacturer dedicated to LED products, including T5/T8 linear light tubes, down lights, PAR lights, AR111 lights, flood lights, light bulbs, recessed lights, and panel lights.

The company was founded in 1989 in Taiwan and specialized in traditional lighting fixtures, experience from which the maker has gained over 15 years to later expand into the LED lighting field by taking advantage of such expertise.

Among the company's most striking products is a series of high-power outdoor lamps that are ideal replacements for ceramic discharge metal-halide (CDM) lamps. Its candlelight-shaped bulb for chandeliers is another, which meet European standards.

The company builds LEDs from international big-name suppliers into its newly designed products to cater to mid-range and high-end buyers worldwide.

The ISO9001- and TS16949-certified ETG has won UL and PSE approvals on its T8 and T5 light tubes, which are already available overseas. Its other products are TUV and CE certified.

With in-house R&D team and factory, ETG Lighting is able to supply quality, cost-competitive products.

Over the past two decades or so, the company has built solid technical strength, upheld by precision manufacturing equipment, stringent quality inspection, scientific management, and well trained R&D specialists.

Placing strong emphasis on research and development, quality, service and innovation, the company has been able to develop innovative products in tune with global trends and meeting customers' specific requirements.

The company's lamps go to market with its brand "ETG".

Honn Shing was established in 1973 as the Manufacturer & Exporter of Blade holder and Ceiling fan. At the first 5 years, we produce blade holder of ceiling fan only. There are two factories, over 20,000 square meters. From 1978, our company starting to the assembling complete set of ceiling fan and lighting to oversea buyers till today. Our R&D Department test and investigates each new developed model. After their approval, we start to purchase a small screw to every other part before assembly. We carefully assemble every step in our production line and do 100% inspection after it is finished. So that, we made sure the each ceiling fan, lighting is well taken care of and with correct packed before shipment. In 1982, we own a warehouse in Tampa, FL., U.S.A. to stock and control American market and selling ceiling fan and track light for 10 years. During this period, our own market is in America. In 199 ...
