Taiwanese Packaging Machine Makers Launch Advanced Models to Stay Afloat amid Underselling Rivalry

Taiwanese Packaging Machine Makers Launch Advanced Models to Stay Afloat amid Underselling Rivalry

By STEVE CHUANG

The packaging machine industry has developed into one of Taiwan's export contributors over the past decades after local companies began production using skills and know-how absorbed from abroad to reduce the industry's dependence on imports, and many insiders have built reputations in the global market by taking advantage of division of labor and R&D to achieve flexible, efficient production and supply high-utility machines with stable quality.

According to Taiwan Association of Machinery Industry, the sector now consists of about 200 manufacturers presently, mostly clustered in Taiwan's northern and central region and small and medium in size. Most machines that the insiders supply are small and medium-sized models for universal packaging, and are especially sought-after by professional buyers from Asian nations as Singapore, Malaysia, S. Korea, Japan, Indonesia, etc.

However, the underselling competition by emerging rivals globally is still the main threat to the sector, resulting in an increasingly harsh landscape to Taiwanese suppliers, especially those who can't further upgrade products because of resources limitations. But, some of them remain undaunted, and have managed to engage themselves in developing higher-end models, in efforts to maintain their competitive advantages and sustainable development.

A technologically leading supplier of labeling machines in Taiwan, Gold Great Good Machinery Co., Ltd., founded in 1986 in Taoyuan County, northern Taiwan, has launched several cutting-edge models that can even match those made in Germany and Italy in performance and speed.

Among those machines, the automatic high-speed OPP labeling machine series provides a striking example of the company's strong R&D capability. Coded MD-6000-OPP, the latest model of the family is highlighted with a star-shaped wheel that firmly carries containers while dispensing to provide stable dispensing performance under high-speed operation, and a servo motor that synchronously track label supply and cutting, and a specially designed vacuum drum to enhance labeling precision.

Further, the machine adopts the so-called three-phase PLC and AV variable control with a synchronized tracking and control system to maintain label cutting accuracy in different running speed. For better stability, a welded, sturdy body enables the machine to turn out up to 600 bottles 3,000c.c. in capacity per minute without dysfunctions occurring.

Easy operation and maintenance, as well as enhanced safety, are also the machine's appeals. The equipment is designed with a centralized lubrication system and a sensor that detects material feeding so as the machine can automatically adjust speed according to feeding situations, and a system safety device that can immediately turn off

the machine when irregular torques, abnormal feeding and other malfunctions occur.

A number of the best-known enterprises, such as Coca Cola, Pepsi, P&G, Unilever, Quaker, Uni-President, Taiwan's largest food and beverage supplier with the biggest convenient store chain, and Kinmen Kaoliang Liquor, a state-owned liquor brewing company in Taiwan, are on Gold Great Good's customer list, while nearly 99% of all bottled mineral water sold on the island is labeled by the company's machines.

Committed to continuous improvements of quality and functionality, L.H. Tsai, general manager, indicates that the company has just worked out an upgraded model of MD-6000-OPP, named MD-9000-OPP, which can turn out 900-1,000 bottles per minute with higher stability and more consistent quality to lead the industry.

Established in 1962 in Taoyuan County, northern Taiwan, Benison & Co., Ltd. is a veteran supplier of shrinkable packaging materials and machinery, and leads the sector by its superior technologies.

The company produced spray hoses, shrinking tubes and wiggery in the very beginning, and then began venturing into shrinkable packaging materials and machines in 1975. Following decades of development in the field, today the company employs more than 200 workers in plants in Taiwan, and some 100 ones in the Philippines, China and Thailand, as one of the largest suppliers in the line. Its available product category covers a broad range of packaging materials, such as polyolefin, OPP, PE, PVC, heat shrinkable labels and cap seals and insulating tubes, and packaging machines, like sealing machines, applying machines and customized packaging lines.

Despite an increasingly disadvantageous competitive landscape his industry is faced with, Benker Liao, Benison's general manager, insists that his company should stay rooted in

Taiwan to keep contributing to the industry's development, and says, "Working out high-quality packaging materials and machines to leverage the industry's competitive advantages is my aspiration; and only sound industrial development can create more jobs to assure young people a brighter future."

For instance, since side sealers are gaining popularity among professionals for higher material efficiency, more stable sealing, extendible packaging length, higher speed and better quality, Bension's USA-005P Auto Side Sealer for shrinking wrapping is built with 2 750W servo motors and 2 25W induction motors, and features an improved graphic operator interface with 40 sets of memory modules and multilingual options, a CE-approved control system with easy expandability, a adjustable speed motor-incorporated feeding device compatible with printing sensors, a conveyor device whose belts are made of imported PU from Japan to meet food safety regulations, and a side sealing device, in which temperature of cutters, all Teflon-coated for easy cleaning and maintenance, is consistently maintained by a SSR (solid state relay) controller and timing belts are used for sealing stability. The machine can seal objectives with height from 2mm to 140mm, with packaging speed of up to 40 packs per minute. (SC) [CENS](#)

JENG FENG CUTTER MANUFACTURE INDUSTRY

**Parts for Paper Making Machines,
Cutters, Knives, Parts and
Accessories for Industrial
Machinery, Industrial Knives**

JENG FENG CUTTER MANUFACTURE INDUSTRY CO., LTD" establishes good reputation with trust because of our developing knife / cutter skill and service. As an experienced cutter / Knife / blade manufacturer and provider in Flexo Knives, Flat plate cross knives, Copper foil cut knife, Circular knives, Round tooth knives, Cutter for cement bag and all kinds of Industrial knives. In order to satisfy customers to use our products in more convenient way, we keep on researching under the positive spirits of our trademark in lead to the leadership position.

Vertical/Horizontal Universal Milling

Vertical/Horizontal Universal Milling Machines

About Us Established since 1988, we are a machinery manufacturer in Taiwan expert in making medium size heavy duty Bed-type Milling Machine and Vertical Machining Center. Our main products are : Bed-type Universal Milling Machine: Equipped with swivel head, in which the rotating cutter can be oriented vertically or horizontally, increasing the flexibility of the machine tool. The sturdy bed-type structure make possible a heavy duty milling depth of average 5mm / Milling Cut $\phi 160$ mm. Bed-type Vertical Milling Machine: Equipped with powerful Vertical Head, this machine is specially designed for your vertical milling demand. It makes a deep heavy milling of 8mm / Milling Cut $\phi 160$ mm Bed-type Horizontal Milling Machine: Special in face milling. Vertical Machining Center: With 8000 rpm spindle, high grade Meehanite structure, four square ways or double linear guide ways providing for superior ...

**Hot-press Forming Machines,
Rubber Injection Molding
Machines, Vacuum-type Rubber
Forming Machines, Hydraulic**

With 30-plus years' experience in making hot press forming equipment, we are a leader in the field, handling diversified vacuum-type rubber forming machines, rubber injection molding machines, thin-film forming lines, hot press testers, air-assisted high-pressure forming lines and many other customized machinery. Backed by seasoned and creative R&D team, we are willing to develop all kinds of to-order servo/energy-efficient forming lines. Inquiries and overseas agents welcome!

YEE JEE TECHNOLOGY CO., LTD.

CNC Lathes, CNC Automatic Lathes, Table-top Lathes, NC/CNC Drilling & Milling Machines, Dedicated Machinery, NC

Having engaged in automation of machine tools for some 30 years, Yee Jee Technology began by helping factories upgrade machinery to save manpower and labor, developing pneumatic and hydraulic models, as well as digitized, intelligent NC and CNC models to enhance precision. To meet increasing, critical demand in Southeast Asia for better, faster, more-efficient processing, we introduce dedicated machinery that works in-line to save space, labor and cost to enhance output quality and efficiency. Focusing on electromechanical integration, we also offer customized, dedicated/multifunctional machine tools and turnkey plants to meet the demands of carmakers as well as makers of bicycles, bathroom hardware, garden tools etc. Contact us for more details about hundreds of models, and ask about technology transfer and joint production.

ALGOOD CO., LTD.

CNC lathed parts, hardware, test probe, electronic parts., rotating shafts, optical fiber connectors, timepiece parts

Algood Co., Ltd. was founded in 2000 and initially relied on CNC turning machines made by Nomura DS Co., Ltd. of Japan to specialize in making test probes for printed circuit boards (PCBs) and precision components. Later on it expanded into production of CNC lathes parts, electronic components, rotating shafts, hardware, optical fiber connectors, timepiece parts, and medical equipment parts like dental posts by fully tapping the know-how related to making precision parts that it had accumulated early on.

CHIN HUNG MACHINERY CO., LTD.

CHIN HUNG MACHINERY CO., LTD.

CNC Lathes, High Speed Precision Lathes

Our founder, Mr. C.F Chang established the factory in Taichung City and serviced the metal working industry by one lathe in 1968. Since 1973, we began made the lathe and named as "CHINHO Machinery Factory". In 1980, we moved the factory to Ta-Ya, Taichung country and reorganized as CHIN HUNG MACHINERY CO., LTD. In order to expand the product, we built the new factory for CNC lathe in 1996 and installed next year. Since 1980 the high speed precision lathe of CHIN HUNG was cooperated with Kingston Machine Tool Mfg., Inc., by mark "KINGSTON". The sales volume always keeps on the top of the list of successful manufactures. For expanding the market "HAMAMATSUKOKI" through G-NET and inspected by J.M.I. (Japan Machinery & Metal Inspection Inspection) up to standard. Chin Hung is the first ...

CHEN FWA INDUSTRIAL CO., LTD.

Precise Auto Tapping Machine, Labor Saving Automatic Air-hydro Drilling Machines, Multiple Spindle Drilling & Tapping Heads

Since manufacturing of manual drilling & tapping machine in 1964, Chen Fwa Industrial Co., Ltd. is the leading manufacturer of precise, labor-saving, automatic drilling & tapping machinery and multiple spindle head equipment in Taiwan through continuous research & development. Our research & development department, using 3D CAD software & 3D standard parts library (cooperating with mechanical industry research laboratories, ITRI,) designs and manufactures "special purpose machine" in order to satisfy customers' particular requirements for special work pieces. For serving our customers, we will continue creating and modifying our machine models to simplify operation, lower costs, and improve efficiency of drilling & tapping works.

Welcome to Jiann Sheng Machinery & Electric Industrial Co., Ltd, home to the JSEDM brand of Electrical Discharge Machines. JSEDM is globally recognized for EDM manufacturing expertise. We are based in Taiwan and have been producing high performance EDM since 1982. We have the broadest range of machines compared to the rest of Taiwan's EDM manufacturers, covering conventional EDM, CNC EDM, wire cut EDM, and drilling EDM. Our product series include: NCF Series: Z Axis Programmable NC EDM with Monitor Display, Up To 500 Steps Program Setting Can Save/Load/Delete Working Experience. EB-N Series: Z Axis Programmable NC EDM with Color Monitor Display, AI & Fuzzy Control. CNC-L Series: Fully CNC Control EDM with 17 Orbit Cutting Movements, Up to 256 Set Preset Working Parameters for Easy Operation. CNC-E Series: ...

Our factory, Xiamen Chiaping Diamond Industrial Co., Ltd. located in Xiamen CHINA since 1989. We have been ISO 9001 certified since 1996. We have been devoted to the development of new products and quality improvement continuously. We engage in the production and sale of diamond (CBN included) and its related products. Our products covers electroplate product, resin product, metal product, ceramic product, diamond dresser and Wool product. Be able to satisfy the rough or fine polishing and moulding processing requirements of all kind materials such as hard alloy, hard mould steel, gems, semiconductor materials, glass and other hard materials or nonmetal materials.

AN JUI PRECISION TOOL CO., LTD.

Cutters and Knives, CNC Tool & Cutter Grinders, CBN Tools and Cutters, Tungsten Carbide Tools and Cutters

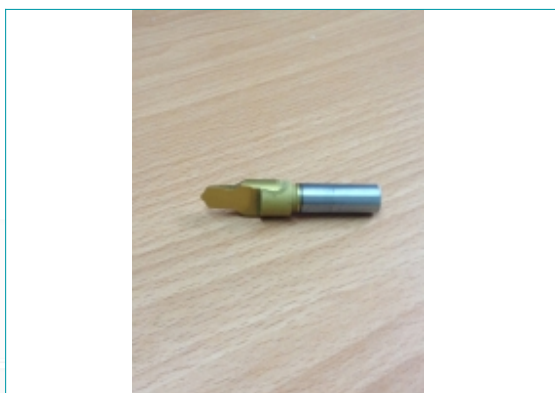

Established in 1995 , An Jui Precision Tool Co., Ltd.is located at Taiping Industrial Zone, Taichung. Initially, An Jui was engaged in manufacturing and developing cutting tools and also produced throw-away cutting tools and tungsten steel blades except for the own brand. Under the strict quality demands from foreign and domestic factories, An Jui's cuttings tools are widely recognized by clients and marketing areas are across Taiwan.

MAROX TOOLS INDUSTRIAL CO., LTD.

Milling Tools, Face Mills, Side Mills, End Mills, Boring Bars, Tool Holders, Shell Mill, Carbide Tool, Cutting Tool, Shell End Mills

Founded in 1976 and initially a maker of special tools, cutters and welded milling cutters, Marox Tools Industrial Co. has diversified its line to meet demand, including disposable milling cutters that were made for American and Japanese customers on an OEM basis in 1979. To enhance production quality and efficiency, we've installed complete NC/CNC machining centers (5-axis models), testing, measuring and inspection instruments, enabling us to turn out lathing tools, tool holders, face, side, end, vertical and shell milling cutters, carbide end mills, boring cutters, threading, grooving and cutting tools, as well as cartridge holders and tungsten carbide boring-cutter bars. With steady, 10% annual growth, we export 80% of output to the USA, Australia, India, Japan, Korea, Hong Kong, Malaysia, Indonesia, the UK, Italy, Portugal, Chile, ...

Power Chucks, Rotary Cylinder, Collet Chuck

Autogrip Machinery Co., Ltd. was established in 1989. Our workshop is located in Pu Hsin County, ChuangHua, which is close to the state road. It is a remarkable place with convenient transportation and beautiful environment. We specialize in manufacturing the power chuck and Rotary cylinder. So far, we have developed a series of products under 50 inch and some related products. For example the spindle for CNC machine tools, coolant rotary joint, chuck, and cylinder for other purpose. The power chuck and rotary cylinder have been certified by SLG, CE, and ISO9001 standard. In the future, we will continue to improve the quality of the products and strengthen the after sales service to meet customers' demands. In addition, we are pushing for ...

CHANTO- CHOOSE YOUR BEST TOOL. The precise achievement comes from our outstanding foundations. CHANTO Founded in 1982, originally as a dealer and manufacturer of Air Cylinders and pneumatic components. Nowadays, we are willing to invite new partners to join our distributors. We also accept OEM and subcontracting orders from some pneumatic manufacturers. We have all kinds of products to provide full range of pneumatic & hydraulic components. Our machine - press are used in various fields. From pneumatic to hydraulic, we have several models to match customer's need. We are Germany TÜV Rheinland ISO 9001: 2001 certificated company. In Taiwan pneumatic industry, Chanto are famous for high quality and precise technique. Always focused on the motto "home in Taiwan but eye on the world", Chanto Fluid Technology

Milling spindle head unit, Machining
Spindle

Hann Kuen is a specialized manufacturer of milling spindle, drilling spindle, milling spindle units, drilling spindle units, tapping spindle units, various spindles, hydraulic slide, cutting tools and relative machinery accessories with more than 25 years' experience. Besides manufacturing, Hann Kuen also represents many well-known brands from Taiwan and worldwide, i.e. SAFEWAY- vise•STANNY-boring system•CHANDC chuck•SKODA-live center from Czech Republic•NAREX-milling angle head from Czech Republic•BLAKE-centering indicator from USA etc... The body material of our boring and milling head unit is made of FC30 casting , which is under highly precision of process by boring and honing. The Alloy Steel is under process of heat-treatment as spindle parts and assembled with NSK or SKF bearing as well. Its accuracy is always within 0.005mm. These kinds of spindle units are ...

HO JET INDUSTRIAL CO., LTD.

MC Supercharger-type Speed Vise, Heavy-duty Index Plate, Vertical Index Plate, Simple Speed Index Plate

A specialist designer and maker of machine tool accessories, Ho Jet Industrial Co., Ltd. markets under own HO JET brand. Handling everything from R&D and manufacturing to management and marketing in-house, we are highly regarded for quality products in over a dozen countries. Our products include MC supercharger-type speed vises, heavy-duty index plates, vertical index plates, simple speed index plates, heavy-duty speed index plates, index heads, universal index heads, multipurpose tailstocks, universal tilting index plates, adjustable tilting angular tables, universal 3-axis angular vises, precision angle lock vises, MC extra-precision power vises, exterior angle-lock power vises, horizontal hydraulic vises, tilting hydraulic vises, light-duty drill grinders, multi-clamp vises, VSP pressure-setting power vises, VIP pressure-setting power vise ...

SANJET INTERNATIONAL CO., LTD.

Automatic Tool Changing Systems, NC (Numerical Control) Milling Machines, ATC, Tool Magazines, Tool Pots

Founded in 2002, Sanjet International designs and develops in-house automatic tool changers, which are sold at home and abroad under the SJ-Auto Tool Changer brand. SJ-ATC-branded products include various quality, innovative ATCs, tool magazines as well as hydraulic and pneumatic tool-removal cylinders for vertical, horizontal and double-column CNC machining centers. With two plants run by a young, energetic management team who works effectively with staffers, we continually engage in personnel training, technology upgrading and exacting production, quality control to deliver top-quality products on-time to fully meet demands.

YEONG DIEN MACHINERY INDUSTRY CO., LTD.

**Manual Pump, Hand-pulled Pump,
Electric Pump, Electromagnetic
Pump, Circulating Pump, Manual
Grease Injector**

Yeong Dien Machinery Industry, as a renowned oil injector manufacturer in Taiwan, has specialized in research and development of central lubrication systems for over 30 years. We have a complete line of grease/thin-oil lubrication/injection systems: straight-flow, resistance, positive displacement, circulative, misting, grease injectors, and progressive injection systems, also offering design, services and lubrication systems for NC machines, machining centers, milling machines, dedicated machines, grinding and finishing machines, injection machines, forging presses, printing machines, woodworking machines, textile machines, knitting machines, shoemaking machines, elevators, and foods. Having learned advanced technology from pioneer partners, we keep refining products to follow trends, providing total machinery lubrication solutions. Our products are adopted

LEAD LONG MACHINERY CO., LTD.

Metal Mesh Machine, Expanded Metal Mesh Machine

Established in 2001, Lead Long Machinery is one of the leading manufacturer of metal mesh machineries, including Expanded Metal Machine, Perforated Metal Machine, Chain Link Fence Weaving Machine, Barbed Wire Machine, Razor Barbed Tape Wire Machine, etc. All machineries and components are designed and developed precisely to achieve the highest quality and standard. The machines produced by Lead Long Machinery are not only user friendly and high productivity, but also diversified. For making expanded metal mesh, perforated metal, barbed wire, razor barbed wire, chain-link fencing etc.

Thread-rolling Machine, Heading Machine

Set up by Xiao Ming-yi in 2011 in Luzhu, Kaohsiung, southern Taiwan, Chuan Yi Sheng Machinery Co., Ltd. manufactures mainly heading machines, thread-rolling machines, and screw-making peripherals. Marketing under the CYS brand, we also integrate screw-associated businesses to offer turnkey export consultancy. Adhering to integrity, innovation and quality, our youthful team has developed a wide variety of machines while continually developing and innovating products to create mutual profitability, having also built complete sales network to offer better, all-round after-sales service.

CHUNG TIE ELECTRICITY WELDING MACHINERY CO.,

Welding machines,Gantry Hydraulic Welding Machine

Welding machines : We would like to introduce ourselves as the manufacturer and specialized in making welding since 1972, started at welding machine for metal wires. In 1974, we developed the welding machine for fan grille. We upgraded the machine to be automatic instead of semi-auto operation. Also kept on improving the whole plant equipment for fan network welding. Those precision and high efficiency equipments for molding industry make the production cost lower and profit increasing. In 1985, we developed a series of welding machines for the industry. Such as: 1.Multi-spot welding machine. The machine is automatic feeds and suitable for welding the steel of construction, racks and flat steel surfaces. 2.Hydraulic multi-spot welding mach ...

FOR DAH INDUSTRY CO., LTD.

Flat Yarn Making Machine, Circular Loom, Sewing & Single Side Printing Machine, Printing Machine, Woven Bag, Plastic Bag,

With over 45 years' experience in the design and manufacture of whole plant equipment for woven bag production, FOR DAH Industry Co., Ltd. is a highly reputed manufacturer. The company's turnover experiences a 20 ~ 30% increase every year and more than 40% of orders are received from old customers' plant expansion. FOR DAH always offer the most advanced packaging machines for their customers and continually improve the level of technologies. Our main products are 1. High Capacity Flat Yarn Making Machine 2. 4 / 6 Shuttles Circular Loom 3. Woven Bag Printing Machine (Piece by Piece and Roll to Roll). 4. Auto. Cutting & Sewing Machine 5. Jumbo Bag Processing Equipment. In order to meet market demands for small & pretty printing rice bag packaging, FOR DAH has improved machinery for conventional woven bags to

PITAC INT'L MACHINERY CO., LTD.

Extruder, Pipe Machine, Sheet Machine, Profile Machine, Plastic Recycle Machine, PLASTIC FOAM EXTRUSION LINES

PiTAC Int'l Machinery Co., Ltd. was established in 1983. With our comprehensive expertise in organization of production lines and machine design, we have been dedicating ourselves in the field of Plastic Extrusion / Injection Process for more than a decade. For the Plastic Foaming Extrusion process, Freon blowing agent has been used since 1985 and now replaced by Butane in PiTAC 's extrusion system. The latest developed has been the re-introduction of a new Type of Freon (R142, R134) again. Moreover, PiTAC constantly develops new kinds of blowing agents and processes in an effort to make production safer, more efficient as well as more economical.

TAI SHIN PLASTIC MACHINERY CO., LTD.

Single and Twin Screw Extruder, Extrusion Line for Pipes, Extrusion Line for Profiles, Extrusion Line for Reinforced Hose

TAI SHIN has been manufacturing equipment for plastics processing industry since 1976. Through years of experience, we have achieved a large number of innovations. Moreover, we have contributed to the success of the industry as a partner in innovation with:

- Extrusion lines, wherein our comprehensive expertise is combined with high technical quality.
 - Individual advice and planning for optimum and efficient production. This is our strength and your advantage
- Delivery program:
- Complete extrusion lines for Flexible hoses reinforced with yarn spiral insert
 - Flat hoses reinforced with polyester yarn
 - Flexible hoses with embedded steel wire spiral
 - Shower hoses reinforced with foil spiral insert
 - Suction/discharge hoses reinforced with rigid PVC spiral

JIUH-SHIN MACHINERY CO., LTD.

EPE/EPP/EPS Machinery and Whole-Plant Equipment, Auto. Vacuum Molding Machine, Full Auto. Vacuum Molding Machine

JSM (JIUH-SHIN MACHINERY CO., LTD.) is dedicated in manufacturing, researching & developing and designing EPP•EPE•EPO•EPS whole plant machinery and equipments. Our products including: Fully Automatic EPP/EPE/EPO/EPS Vacuum Molding Machine, EPS Quantitative Pre-expander (batch type), EPS Block Machine and related machinery, equipment, accessories, parts and Precision Aluminum Mold. We have another EPP/EPS shape molding factory which engaged in R&D and production.

HISUN OIL PRESSES CO., LTD.

Vacuum Type Heading Pressure Shaping Machine, Butterfly Automatic Lift Heat Forming Machine

Our company was founded in 1980 to engage in the design and manufacture of all kinds of hydraulic automatic forming machines, including rubber hot press forming machines, steel plate forming machines, gold forming machines, identification badges forming machines, wood grains forming machines, vacuum forming machines, and rubber injection forming molding machines. Our manufacturing capabilities can reach between 10 tons and 5,000 tons. Our corporate management concepts: *Product zero defect is our ultimate goal. *Providing best quality products, reasonable prices, and sincere services. We will continue our R&D and innovation efforts in order to offer more precision and highly stable products for the mold industry in the future. Several new models are now available.

Established in 1977, we have engaged in these professional fields more than 26 years. Mainly, we export our machines to south-east Asia, America, Europe and the Middle East. And we have enjoyed an excellent reputation for our items in Taiwan. Our main lines of products can be divided into 5 categories as below: 1.)Fully automatic printing and packing machine. 2.)Metal stretch net making machine. 3.)Cotton bud making plant. 4.)Incense-making machine series. 5.)Full set of plant equipments for bamboo & wood productions. For years of research and technological improvements, we trust that our products are good at quality and its functions. Moreover, we can according to our customers' requirement to design new patent machine.

CAREER INDUSTRY CORP.

Paper Tube/Core Winder, Paper Tube/Core Re-cutter, Paper Can Production Machines, Slitting and Rewinding Machines

Career is the leading supplier of paper tube making plant located in Taiwan. We are the only one who is capable of integrating the manufacture of turnkey plant with quality and reliable paper tube production equipments and other related machines made in Taiwan or made in China. We can also provide the knowledge of paper tube production as well as the raw materials. In 30 years of operation, we have great experience in this business field and have successfully installed hundreds of production equipment in 29 countries worldwide.

Granulating Machine: Having accumulated many years of experience in the design of manufacturing processes and whole-plant equipment, our company specializes in designing and manufacturing production equipment for the pharmaceutical, food processing, and chemical engineering industries, as well as other associated peripheral equipment. Major business scopes:

- * Granule-making machinery for the pharmaceutical, food processing, and chemical engineering industries.
- * Low temperature vacuum condenser.
- * Extraction systems, extraction tanks, stainless steel stirrers, and storage tanks for pharmaceutical and food processing.
- * Water-cooled centrifugal grinders and mineral grinders.
- * Vertical crushers.
- * High- and low-viscosity liquid

Slotters

Slotters

Slotters

JICH CHYNG ENTERPRISE CO., LTD.

Driving Belts, Industrial Belts

Having been importing and selling belts and V-belts from Europe, North America and Japan since 1993, we began developing new rubber materials, building multi-ribbed belts in 2000. Superior to PU counterparts, this new, multi-ribbed rubber belt features: 1. Reinforced layer with improved resilience to enhance power transmission. 2. Rubber base for even withholding of force better enhances wear resistance. 3. Less sag relative to conventional counterparts under equal wear shows this rubber belt varies less in tension for more stable power transmission.
