Guide to PDF Reader

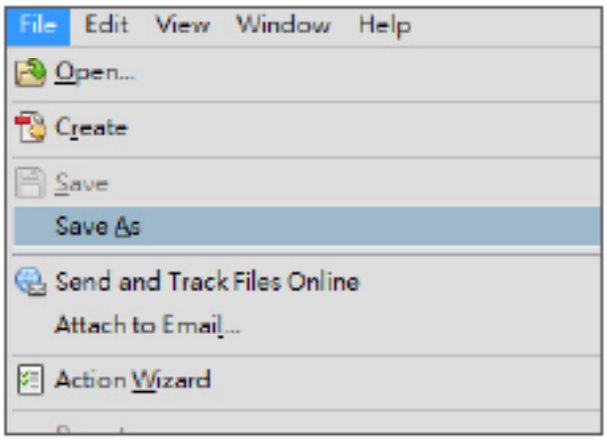

How to edit display settings

Select "View >> Page Display" to edit the way you like to read E-magazine.

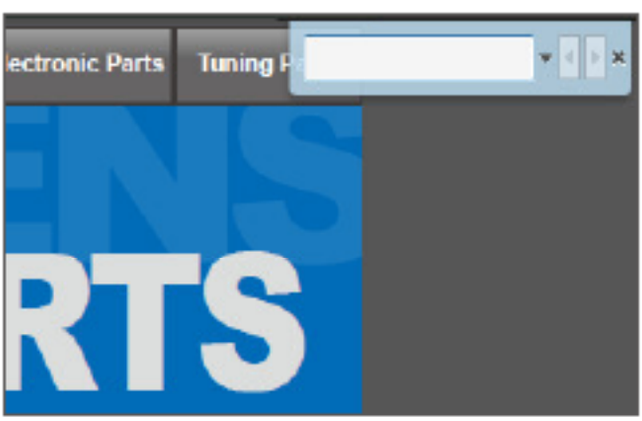

How to save a new copy of this E-magazine

Press "Shift + Ctrl + S" or select the "Save" option, and confirm your selection by choosing "Save a copy".

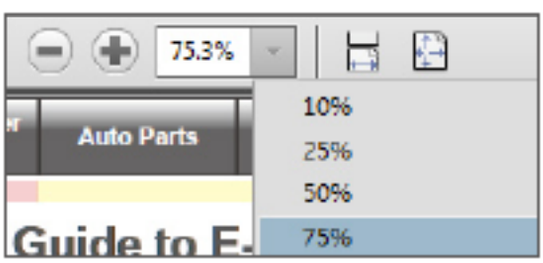

How to text search

Press "Ctrl + F" and enter keyword(s).
If no match is found, broaden the category of keyword(s). This search function works on exact match of keyword(s).

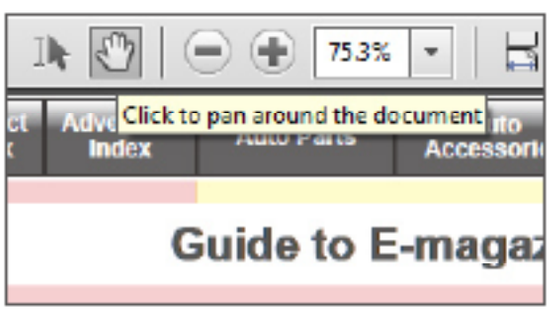

How to use zoom options and move around an enlarged page

Click either  **icon to zoom in or out a page.**

"Hand Tool" enables moving around an enlarged page for reading convenience.

* The above guidelines are based on Adobe Reader. When using other PDF reading software, check "Help" function to edit page display settings. If reading this PDF E-magazine via Chrome, Firefox or IE, enable Adobe Plug-in to improve viewing experience.
Please feel free to comment regarding using this E-magazine by emailing: buyerservice@cens.com

Taiwan's machine tool manufacturers mostly experienced a buoyant month in January (photo courtesy of UDN.com).

Taiwan's Machine Tool Makers Generally See Rosy Revenue in Jan.

Gradually shaking off the sales doldrums, Taiwan's major machine tool makers mostly witnessed revenue rebound significantly in January.

By Steve Chuang

Among them, Awea Mechantronic Co., Ltd., specialized in various CNC and 5-axis milling machines, posted combined revenue of NT$291 million (roughly US$9.47 million) in the month for a year-on-year surge of 15.92 percent, and attributed the encouraging results to strong demand of customers from various sectors, particularly precision machining and aerospace industries, worldwide.

With unfilled orders worth US$1.5 billion (US$48.79 million) on hand now, which continually came from clients in China, the U.S., S. Korea and Europe, Awea confirmed that it has seen its order visibility extend to June, to assure itself of robust performance in the months to come.

Coincidentally, Kao Fong Machinery Co., Ltd., engaged in horizon, vertical and double-column machining centers, finished January

with combined revenue of NT$185 million (US$6.01 million), sharply rising by 25.06 percent from last January.

Explaining the impressive revenue turnaround, Kao Fong's executives noted that the influx of orders to the company has turned steady since the second half of 2016, and even accelerated after the Chinese New Year break, especially those from the U.S., China and Europe. Presently, this maker holds orders worth some NT$700 million (US$22.77 million), with production lines already booked through May.

Meanwhile, Quaser Machine Tools Inc., working on various machining centers, scored combined revenue of NT$128 million (US$4.16 million) for January, representing a whopping growth of 33.43 percent over last January, to which, the firm owed partly to surging orders received, and partly to deferred incomes received last December being reported in the month. For the moment, the company's order visibility has extended to up to three and a half months.

Taiwan Takisawa Technology Co., Ltd., dedicated to turning machines, reported combined revenue of NT$187 million (US$6.08 million) for January, soaring 6.81 percent year on year, with the order visibility of around 2-3 months. CENS

Bed-Type Universal Milling Machine

Vertical/Horizontal Universal Milling

Vertical/Horizontal Universal Milling Machines

About Us Established since 1988, we are a machinery manufacturer in Taiwan expert in making medium size heavy duty Bed-type Milling Machine and Vertical Machining Center. Our main products are : Bed-type Universal Milling Machine:Equipped with swivel head, In which the rotating cutter can be oriented vertically or horizontally, increasing the flexibility of the machine tool. The sturdy bed-type structure make possible a heavy duty milling deepth of average 5mm / Milling Cut ø160 mm. Bed-type Vertical Milling Machine: Equipped with powerful Vertical Head, this machine is specially designed for your vertical milling demand. It makes a deep heavy milling of 8mm / Milling Cut ø160 mm Bed-type Horizontal Milling Machine: Special in face milling. Vertical Machining Center:With 8000 rpm spindle, high grade Meehanite structure, four square ways or double linear guide ways providing for superior ...

TUNG HSIANG MACHINERY ENTERPRISE CO., LTD.

Hot-press Forming Machines, Rubber Injection Molding Machines, Vacuum-type Rubber Forming Machines, Hydraulic

With 30-plus years' experience in making hot press forming equipment, we are a leader in the field, handling diversified vacuum-type rubber forming machines, rubber injection molding machines, thin-film forming lines, hot press testers, air-assisted high-pressure forming lines and many other customized machinery. Backed by seasoned and creative R&D team, we are willing to develop all kinds of to-order servo/energy-efficient forming lines. Inquiries and overseas agents welcome!

Customized-Dedicated Machinery -- Automotive Suspension Parts

Auto-parts Processing Machinery: Hi-speed Chamfering Machine for Metallic

Having engaged in automation of machine tools for some 30 years, Yee Jee Technology began by helping factories upgrade machinery to save manpower and labor, developing pneumatic and hydraulic models, as well as digitized, intelligent NC and CNC models to enhance precision. To meet increasing, critical demand in Southeast Asia for better, faster, more-efficient processing, we introduce dedicated machinery that works in-line to save space, labor and cost to enhance output quality and efficiency. Focusing on electromechanical integration, we also offer customized, dedicated/multifunctional machine tools and turnkey plants to meet the demands of carmakers as well as makers of bicycles, bathroom hardware, garden tools etc. Contact us for more details about hundreds of models, and ask about technology transfer and joint production.

ALGOOD CO., LTD.

CNC lathed parts, hardware, test probe, electronic parts., rotating shafts, optical fiber connectors, timepiece parts

Algood Co., Ltd. was founded in 2000 and initially relied on CNC turning machines made by Nomura DS Co., Ltd. of Japan to specialize in making test probes for printed circuit boards (PCBs) and precision components. Later on it expanded into production of CNC lathes parts, electronic components, rotating shafts, hardware, optical fiber connectors, timepiece parts, and medical equipment parts like dental posts by fully tapping the know-how related to making precision parts that it had accumulated early on.

Diamond Taper Files, Diamond Tip Files Fa Series, Diamond Precision Files, Diamond Bent Files, Diamond Machine Files

Our factory, Xiamen Chiaping Diamond Industrial Co., Ltd. located in Xiamen CHINA since 1989. We have been ISO 9001 certified since 1996. We have been devoted to the development of new products and quality improvement continuously. We engage in the production and sale of diamond (CBN included) and its related products. Our products covers electroplate product, resin product, metal product, ceramic product, diamond dresser and Wool product. Be able to satisfy the rough or fine polishing and moulding processing requirements of all kind materials such as hard alloy, hard mould steel, gems, semiconductor materials, glass and other hard materials or nonmetal materials.

MAROX TOOLS INDUSTRIAL CO., LTD.

Milling Tools, Face Mills, Side Mills, End Mills, Boring Bars, Tool Holders, Shell Mill, Carbide Tool, Cutting Tool, Shell End Mills

Founded in 1976 and initially a maker of special tools, cutters and welded milling cutters, Marox Tools Industrial Co. has diversified its line to meet demand, including disposable milling cutters that were made for American and Japanese customers on an OEM basis in 1979. To enhance production quality and efficiency, we've installed complete NC/CNC machining centers (5-axis models), testing, measuring and inspection instruments, enabling us to turn out lathing tools, tool holders, face, side, end, vertical and shell milling cutters, carbide end mills, boring cutters, threading, grooving and cutting tools, as well as cartridge holders and tungsten carbide boring-cutter bars. With steady, 10% annual growth, we export 80% of output to the USA, Australia, India, Japan, Korea, Hong Kong, Malaysia, Indonesia, the UK, Italy, Portugal, Chile, ...

HG TECHNOLOGY CO., LTD.

High Speed Cutting & High Hard Cutting, Ball Nose End Mills Series, End Mills Series, Materials Cutting Series

HG Technology Co., Ltd., located at Changhua, Taiwan, dedicated to developing, designing, producing, and marketing cutting tools, comprises professionals with sophisticated processing experience that provide extensive services and ensure total customer satisfaction. Our service range extensively covers 3C, semiconductor, medical care equipment, aerospace, and precision molding industries. HG Technology continuously develops more advanced processing technologies based on the enterprise philosophy of extending the lifespan of tools, increasing work efficiencies, minimizing production costs in terms of wear and tear of tools, and maximizing customer benefits. For HGT Carbide End Mills, from material to finished products, HG Technology insists on utilizing the processes provided by the original European manufacturers for the production. We only use high quality and stable German Carbide Rods,

Power Chucks, Rotary Cylinder, Collet Chuck

Autogrip Machinery Co., Ltd. was establish in 1989. Our workshop is located in Pu Hsin County, ChuangHua, which is close to the state road. It is a remarkable place with convenient transportation and beautiful environment. We specialize manufacturing the power chuck and Rotary cylinder. So far, we have developed a series of products under 50 inch and some related products. For example the spindle for CNC machine tools, coolant rotary joint, chuck, and cylinder for other purpose. The power chuck and rotary cylinder have certify by SLG, CE, and ISO9001 standard. In the future, we will continuing improve quality of the products and strengthen the after sales service to meet customers' demands. In addition, we are pushing for ...

SANJET INTERNATIONAL CO., LTD.

Automatic Tool Changing Systems, NC (Numerical Control) Milling Machines, ATC, Tool Magazines, Tool Pots

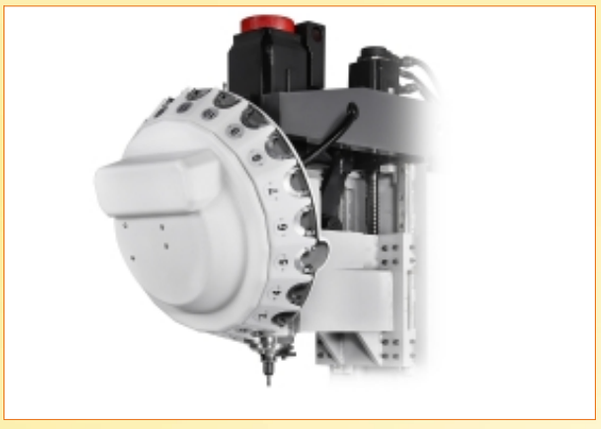

Founded in 2002, Sanjet International designs and develops in-house automatic tool changers, which are sold at home and abroad under the SJ-Auto Tool Changer brand. SJ-ATC-branded products include various quality, innovative ATCs, tool magazines as well as hydraulic and pneumatic tool-removal cylinders for vertical, horizontal and double-column CNC machining centers. With two plants run by a young, energetic management team who works effectively with staffers, we continually engage in personnel training, technology upgrading and exacting production, quality control to deliver top-quality products on-time to fully meet demands.

CHUNG TIE ELECTRICITY WELDING MACHINERY CO.,

Welding machines,Gantry Hydraulic Welding Machine

Welding machines : We would like to introduce ourselves as the manufacturer and specialized in making welding since 1972, started at welding machine for metal wires. In 1974, we developed the welding machine for fan grille. We upgraded the machine to be automatic instead of semi-auto operation. Also kept on improving the whole plant equipment for fan network welding. Those precision and high efficiency equipments for molding industry make the production cost lower and profit increasing. In 1985, we developed a series of welding machines for the industry. Such as: 1.Multi-spot welding machine. The machine is automatic feeds and suitable for welding the steel of construction, racks and flat steel surfaces. 2.Hydraulic multi-spot welding mach ...

YE I MACHINERY FACTORY CO., LTD.

Profile / PVC Pipe Manufacturing Lines, Co-extrusion Machines, Inflation Tubular Film Making Machines

Established in 1960, YE I company started with capital of NT$200,000 and a labor force of only ten, forming a typical family-run company. In 1980, due to business growth, YE I was officially renamed “YE I Machinery Factory Co., Ltd.”, and the company staff grew to 120. YE I's business range includes designing and manufacturing a wide variety of plastic extrusion machinery, supplying whole plant equipment, and barrel making. Over the past 30 years, the collaborative support rendered by our customers, around the world, and the continuous endeavors of the company employees have built an outstanding reputation for our company worldwide.In order to revolutionize products, improve production processes, and promote efficiency, we have ...

PITAC INT'L MACHINERY CO., LTD.

Extruder, Pipe Machine, Sheet Machine, Profile Machine, Plastic Recycle Machine, PLASTIC FOAM EXTRUSION LINES

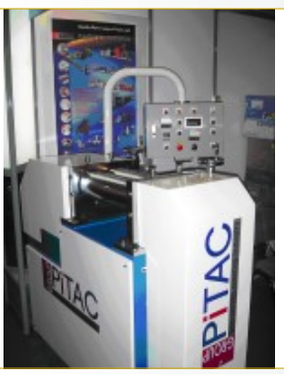

PiTAC Int'l Machinery Co., Ltd. was established in 1983. With our comprehensive expertise in organization of production lines and machine design, we have been dedicating ourselves in the field of Plastic Extrusion / Injection Process for more than a decade. For the Plastic Foaming Extrusion process, Freon blowing agent has been used since 1985 and now replaced by Butane in PiTAC 's extrusion system. The latest developed has been the re-introduction of a new Type of Freon (R142, R134) again. Moreover, PiTAC constantly develops new kinds of blowing agents and processes in an effort to make production safer, more efficient as well as more economical.

KANG CHYAU INDUSTRY CO., LTD. 76

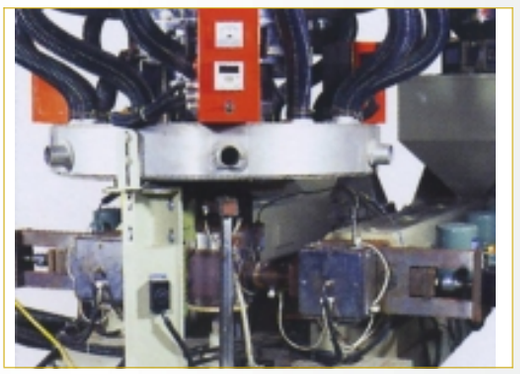

KANG CHYAU INDUSTRY CO., LTD.

High-speed Inflation Machine, Plastic Bags Making Machine, Blown-film Making Machine, HDPE/LDPE/LLDPE Plastic

Since its founding in 1988 Kang Chyau Industry has worked constantly to bring out new and innovative products and offer customers a wide range of choices. After more than a decade of work our products are now sold in 62 countries around the globe, a true measure of our success in the market. Kang Chyau uses only the finest equipment and materials to ensure that all of our products will be of the highest quality. For example we use SKF ball bearings from Sweden for our main spindles and magnetic switches from Telemecanique of France. Each blow molding machine is equipped with an electronic length counter and an accumulated time meter. In addition, all main output shafts are precision ground for exceptional stability and quiet operation. We are experienced producers of turn-key plants for plastic bag manufacturers, and our broad range of models and acce ...

JICH CHYNG ENTERPRISE CO., LTD.

Driving Belts, Industrial Belts

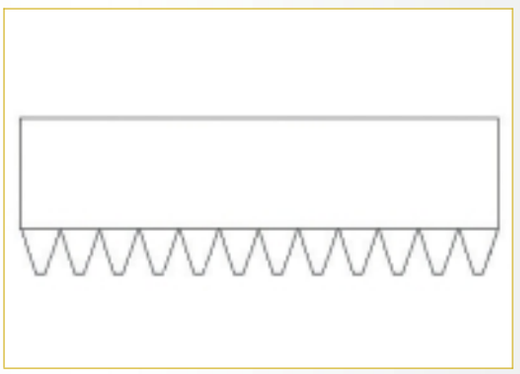

Multi-ribbed Rubber Belts

Having been importing and selling belts and V-belts from Europe, North America and Japan since 1993, we began developing new rubber materials, building multi-ribbed belts in 2000. Superior to PU counterparts, this new, multi-ribbed rubber belt features:1. Reinforced layer with improved resilience to enhance power transmission.2. Rubber base for even withholding of force better enhances wear resistance. 3. Less sag relative to conventional counterparts under equal wear shows this rubber belt varies less in tension for more stable power transmission.

CHENTA PRECISION MACHINERY IND. INC.

Worm Gear Speed Reducer, Helical Gear Speed Reducer, Hollow Shaft Speed Reducer, Gear Motor, Paddle Wheel

In 1960, Mr. Mao Cheng Chen, president of the company, and two colleagues in the department of Mechanical Engineering at Tainan Engineering College (predecessor of Cheng Kung University) established a company called "Chen Ta Machinery Works". It was named "Chen Ta" in honor of their Alma mater, Cheng Kung University (called Chen Ta in short) Chen Ta Machinery Works specialized in machining jobs such as grinding/re-building of the crankshafts of automobile and vessel engines, cylinder overhaul, and diesel tuning. Due to the excellent technique and cordial service, the company name was soon well known and the business became prosperous. In 1971, Chen Ta Machinery began a partnership with Mitaka Koki, and Jen Wu M ...

Services

HONG KONG INTERNATIONAL PRINTING & PACKAGING FAIR 124

One-stop Printing & Packaging Solutions to Boost Business

Organised by the Hong Kong Trade Development Council and CIEC Exhibition Company (HK) Limited, Hong Kong International Printing & Packaging Fair is expecting over 430 international exhibitors including printing and packaging solutions which serve publishers, advertising agencies, public relations and marketing consultancies, production houses, design studios, retailers and brand owners of FMCG etc. The fair is known for the breath of its services and technology, which attracted over 14,400 buyers from 96 countries and regions in 2016.

Printing & Packaging

Superb Packaging for Luxury Goods

Asia is an important market for luxury goods such as jewellery, watches, cosmetics, perfumes, wine, spirits, gourmet food, gifts, fashion and accessories. The **De Luxe Zone** highlights the premium quality materials and finishes, including the latest innovations - special effects. Design excellence is shown in the range of boxes, bottles and metal containers, as well as decorative touches and branded tags and labels.

Sustainability Highlighted in Green Zone

The fair's **Green Printing & Packaging Solutions Zone** has a wealth of options to cater for such desire. Major exhibits include recyclable and bio-degradable packaging materials, recycled ink and other sustainable printing & packaging solutions.

New Zones in 2017

Hong Kong International Printing & Packaging Fair 2017 features two new zones. "**Printing and Packaging Solutions for Fashion & Accessories**" will highlight printing and packaging solutions for fashion & accessories with products such as textile printing machines, labels, ribbons. Another new zone "**Innovative Retail Display Solutions**" will present innovative retail display solutions, including paper display racks, visual merchandising and smart shelf solutions.

Activities Add Value

Buyers can participate in networking events which bring together industry peers from around the world, to exchange news and establish business relationships. Seminars and forums inform visitors of the latest technologies and trends.

Synergy in Sourcing and Inspiration

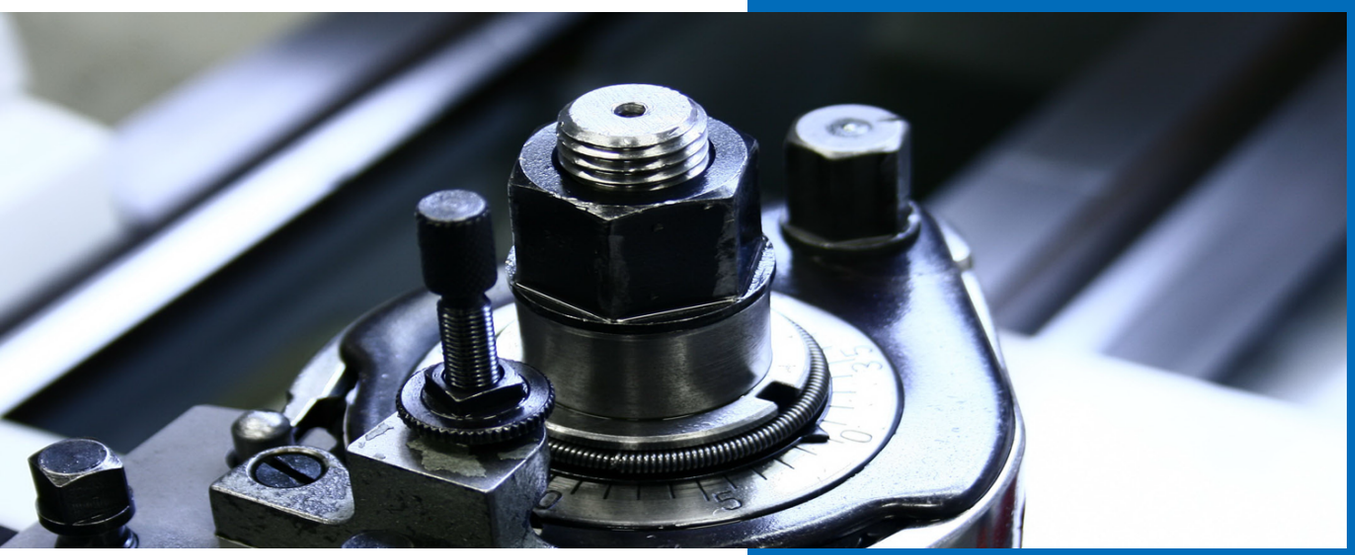

The leading gift fair in the world, the HKTDC Hong Kong Gifts & Premium Fair, is held concurrently at the Hong Kong Convention and Exhibition Centre. One buyer badge allows access to both fairs. The two fairs are connected by a courtesy shuttle bus service.

HKTDC offers exclusive incentive for overseas buyers

FAST & FUNCTION

There is only one event that can provide the plastics and petrochemical manufacturing industry with the latest machinery and technologies, new knowledge, and global networks that the industrialists need to speed up manufacturing processes with cutting-edge functions. “InterPlas Thailand 2017” will be the one-stop sourcing platform that you will want to mark your calendar for. From efficient injection moulding, blowing, extrusion to recycling for various applications from automotive, electronics, packaging to medical devices, all you will ever need is here.

InterPlas Thailand 2017

Thailand’s Only International Trade Exhibition and Conference for Plastics and Petrochemical Manufacturing Machinery and Technology – 26th Edition

Co-located with:

InterMold Thailand 2017 | AUTOMOTIVE MANUFACTURING 2017 | ASSEMBLY & AUTOMATION 2017 | SURFACE & COATINGS 2017 | M Fair ものづくり展示会 | NEPCON Thailand 2017

Exhibit space is open for reservation.
