Click **Webpage** to connect to the introduction of the advertiser/supplier.

Guide to PDF Reader

How to edit display settings

Select “View >> Page Display” to edit the way you like to read E-magazine.

How to save a new copy of this E-magazine

Press “Shift + Ctrl + S” or select the “Save” option, and confirm your selection by choosing “Save a copy”.

How to text search

Press “Ctrl + F” and enter keyword(s).
If no match is found, broaden the category of keyword(s). This search function works on exact match of keyword(s).

How to use zoom options and move around an enlarged page

Click either  icon to zoom in or out a page.

“Hand Tool” enables moving around an enlarged page for reading convenience.

* The above guidelines are based on Adobe Reader. When using other PDF reading software, check “Help” function to edit page display settings. If reading this PDF E-magazine via Chrome, Firefox or IE, enable Adobe Plug-in to improve viewing experience.

Please feel free to comment regarding using this E-magazine by emailing: buyerservice@cens.com

HKDC creates the world's
biggest lighting marketplace
with two-in-one event.

Hong Kong Creates World's No.1 Lighting Trade Fair with 2-in-1 Event

Four-day event draws 2,727 exhibitors and about
50,000 buyers

A total of 2,727 exhibitors from countries drew nearly 50,000 buyers to the 17th Autumn Edition of the Hong Kong International Lighting Fair (LFAE) and the inaugural World of Outdoor Lighting & Lighting Accessories (WOLLA), making the two-in-one trade event the world's biggest lighting marketplace, according to the organizer, the semi-official Hong Kong Trade and Development Council (HKTDC).

Staged October 27-30, 2015, the LFAE alone attracted 38,097 buyers from 138 countries to source products displayed by 2,555 exhibitors (including first-time exhibitors from Chile, Cyprus, Saudi Arabia, Seychelles, and the UAE) from 35 countries, compared with 2,492 exhibitors and 36,952 buyers at the 2014 edition of this show.

Vertical/Horizontal Universal Milling
Machines

About Us Established since 1988, we are a machinery manufacturer in Taiwan expert in making medium size heavy duty Bed-type Milling Machine and Vertical Machining Center. Our main products are : Bed-type Universal Milling Machine: Equipped with swivel head, in which the rotating cutter can be oriented vertically or horizontally, increasing the flexibility of the machine tool. The sturdy bed-type structure make possible a heavy duty milling depth of average 5mm / Milling Cut $\phi 160$ mm. Bed-type Vertical Milling Machine: Equipped with powerful Vertical Head, this machine is specially designed for your vertical milling demand. It makes a deep heavy milling of 8mm / Milling Cut $\phi 160$ mm Bed-type Horizontal Milling Machine: Special in face milling. Vertical Machining Center: With 8000 rpm spindle, high grade Meehanite structure, four square ways or double linear guide ways providing for superior ...

P-ONE MACHINERY CO., LTD.

Vertical Machining Centers, Horizontal Machining Centers

Founded by several professional technicians with experiences in Machine Tools for over 20 years, P-One Machinery Co., Ltd., is a professional, innovative and high-quality insisted manufacturer. P-ONE has successfully researched and developed various products with specific features so far and won high opinions from all walks of life by overcoming all difficulties. Satisfaction and quality are not only our promises and responsibility to customers, but also the main goals that all members at P-ONE strive for. Welcome to visit our factory for demonstration to know more details of our machines. We'll provide our sincere services with excellent quality, most reasonable prices and most punctual delivery.

DOPLAS ENTERPRISE CO., LTD.

Extruder, extrusion equipment, plastic recycling equipment, plastic recycling machine, blown film, recycling, recycling equipment

Doplas Enterprise Co., founded in 1995, is one of Taiwan's leading manufacturers of various kinds of plastic extruders, operating a plant in Tainan County, southern Taiwan with a land area of 19,800 square feet. At present, the company's major product lines include plastic-waste recycling machines, high-speed blown film making machines, LDPE/PE/ABS sheet-making machines, two-stage venting recycling machines, strapping tape making machines. The company is capable of rolling out 50 to 60 machines per year. The company says its machinery products feature high productivity, laborsaving, long durability, and easy operation, and are sold under its own brand of "DOPLAS". At present, more than 90% of the firm's total output is exported, mainly to Latin America, the Middle East, and Southeast Asia.

PITAC INT'L MACHINERY CO., LTD.

Extruder, Pipe Machine, Sheet Machine, Profile Machine, Plastic Recycle Machine, PLASTIC FOAM EXTRUSION LINES

PiTAC Int'l Machinery Co., Ltd. was established in 1983. With our comprehensive expertise in organization of production lines and machine design, we have been dedicating ourselves in the field of Plastic Extrusion / Injection Process for more than a decade. For the Plastic Foaming Extrusion process, Freon blowing agent has been used since 1985 and now replaced by Butane in PiTAC 's extrusion system. The latest developed has been the re-introduction of a new Type of Freon (R142, R134) again. Moreover, PiTAC constantly develops new kinds of blowing agents and processes in an effort to make production safer, more efficient as well as more economical.

Since its founding in 1988 Kang Chyau Industry has worked constantly to bring out new and innovative products and offer customers a wide range of choices. After more than a decade of work our products are now sold in 62 countries around the globe, a true measure of our success in the market. Kang Chyau uses only the finest equipment and materials to ensure that all of our products will be of the highest quality. For example we use SKF ball bearings from Sweden for our main spindles and magnetic switches from Telemecanique of France. Each blow molding machine is equipped with an electronic length counter and an accumulated time meter. In addition, all main output shafts are precision ground for exceptional stability and quiet operation. We are experienced producers of turn-key plants for plastic bag manufacturers, and our broad range of models and acce ...

JICH CHYNG ENTERPRISE CO., LTD.

Driving Belts, Industrial Belts

Having been importing and selling belts and V-belts from Europe, North America and Japan since 1993, we began developing new rubber materials, building multi-ribbed belts in 2000. Superior to PU counterparts, this new, multi-ribbed rubber belt features: 1. Reinforced layer with improved resilience to enhance power transmission. 2. Rubber base for even withholding of force better enhances wear resistance. 3. Less sag relative to conventional counterparts under equal wear shows this rubber belt varies less in tension for more stable power transmission.
