<http://m.cens.com/s/05384743>

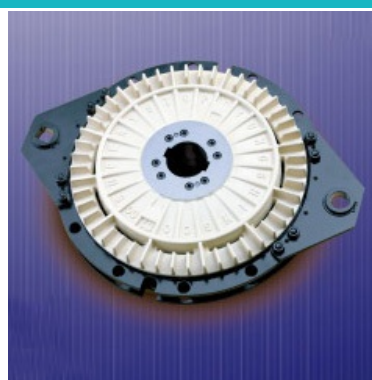

Founded in 1948, Yung Shing began by making sewing-machine parts, parts for electric home appliances and machinery, being a major parts supplier to local industries in the early days. In 1955, we were the first in Taiwan to turn out can-making turnkey plant for the food-processing sector, and soon began selling such turnkey plants to Southeast Asia ... [more]
