Around the world, our innovative lighting showrooms support our mission to transform the way people interact with their environments, by providing inspirational energy saving lighting solutions. We call this: the Aurora Lighting Experience, or A.L.E.X!

A.L.E.X Around the Globe: Since the opening of A.L.E.X in the UK, we've opened several additional A.L.E.X showrooms at key regional headquarters throughout the world. Each provides a unique hands-on Aurora Lighting experience with popular lighting selections for that marketplace.
