<http://m.cens.com/s/pilotmetal>

Founded in 1988, Pilot Metal Industrial makes mainly spindles and metallic parts for office machines with precision CNC machine tools as Nomura-16mm and Citizen-32mm sliding-headstock lathes. We've also been engaged in R&D and fabrication of hydraulic and fiber-optic parts in the last 5 years. To offer flawless products, we continue to strengthen i ... [more]
