<http://m.cens.com/s/gengjin>

After two generations as a family-run grinding contractor, we established Geng Jin Technology Co., Ltd. in 2008 to expand and focus especially on building aerospace parts, without forgetting our down-to-earth roots and work ethics. We offer mainly grinding tools, polishing compounds, stones etc. with four dedicated divisions.

Polishing Compounds

Crystolon/Siliceous Sandstones

Dual-conical Grinding Stones
