*KO WIN YANG INDUSTRIAL CO., LTD. was founded with plastic crusher in 1980. In 1985, KOWIN started researching and developing PVC washing system and designing turn-key plant for PP/PE film and PET recycling and extrusion-pelletizing. To date, KOWIN is with more than 20 years of experience and various international patents. In 2010, KOWIN announced the newest product—Non-stop Screen Changer with Backflush System—patented worldwide; also, established KOWIN lab factory.*
