<http://m.cens.com/s/yulong>

Founded in 1997 as "Xin Chuan Industrial Corp." but initially the Yu Long Metal Industrial Co., Ltd, we started supplying various metallic items including screws, spindles, rivets, multi-stage screw formed parts etc. We adopted 6-die-6-mold forming machines to enhance product capacity, lower cost, and offer wider range.

To pursue sustainability and prioritize customers, we offer made-to-order services and aim to become a successful OEM and ODM. To cope with rapidly changing industrial structure and growth, we insist on stringent QC and prompt delivery to be a reliable and reputable supplier of metallic parts.
