Guide to PDF Reader

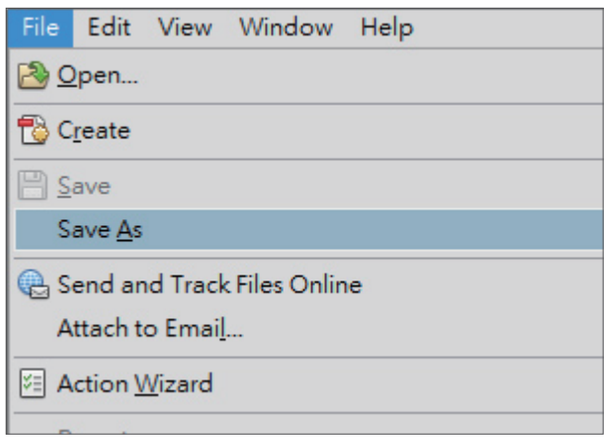

How to edit display settings

Select "View >> Page Display" to edit the way you like to read E-magazine.

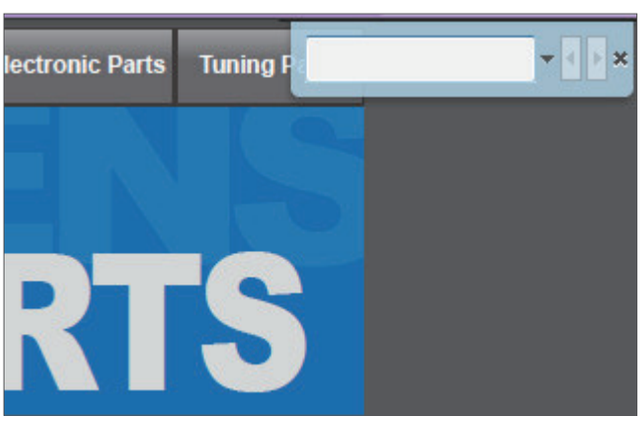

How to save a new copy of this E-magazine

Press "Shift + Ctrl + S" or select the "Save" option, and confirm your selection by choosing "Save a copy".

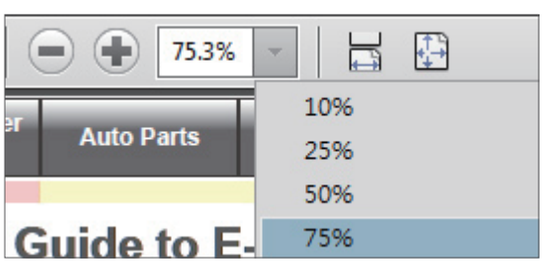

How to text search

Press "Ctrl + F" and enter keyword(s).
If no match is found, broaden the category of keyword(s). This search function works on exact match of keyword(s).

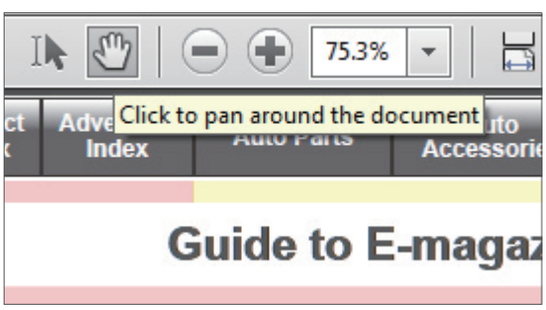

How to use zoom options and move around an enlarged page

Click either  **icon to zoom in or out a page.**

"Hand Tool" enables moving around an enlarged page for reading convenience.

* The above guidelines are based on Adobe Reader. When using other PDF reading software, check "Help" function to edit page display settings. If reading this PDF E-magazine via Chrome, Firefox or IE, enable Adobe Plug-in to improve viewing experience.

Chang Loon Launches New Ratchet Wrench with Improved Precision and Utility

Tool features 100-tooth ratchet with each small turn of 3.6 degrees

By STEVE CHUANG

A specialized manufacturer of wrenches and other hand tools in Taiwan, Chang Loon Industrial Co. has just launched a new ratchet wrench with enhanced precision and utility, to underline its strong commitment to continuous improvements of functionality and quality.

Made of high-quality steel with Chang Loon's time-tested techniques and undergoing special thermal treatment, the ratchet wrench highlights higher torque, stronger structural durability and longer lifespan than competing models. Plus, its ergonomic handle and light weight ensure users not just a comfortable grip, but greatly reduced fatigue when they use the tool.

Moreover, a fine 100-tooth ratchet is built into the tool, with each small turn moving precisely through only 3.6 degrees. Compared to a conventional 72-tooth ratchet mechanism that generally calls for a 5-degree turn to complete an operating cycle, the improvement, which underscores even smaller backlash, achieved by Chang Loon's consummate metalworking skills, makes the wrench easier to use in confined spaces and more efficient and effort-saving.

A High-profile Maker of Ratchet Wrenches

Founded in 1974 in Changhua County, central Taiwan, Chang Loon has specialized in making wrenches meeting GeprUfte Sicherheit (GS) standards for over four decades. The company supplies two major lines of products, ratchet wrenches and bolt cutters, mainly on an original equipment manufacturing (OEM) basis, and today is Taiwan's largest exporter of ratchet wrenches by volume,

The veteran maker's products have been sought-after by customers in Southeast Asia, Central Asia, Southeast America, Canada, the U.S. and Europe.

Chang Loon's current success is attributed partly to its unremitting efforts on continuous upgrades of production technology. To that end, the company has constantly resorted to technological cooperation with its foreign counterparts in Asia and Europe, as well as OEM collaboration with globally prestigious branded vendors

Focus on developing and providing customer-oriented services is also among factors behind Chang Loon's sustained development in the global market. For instance, the manufacturer offers innovative packaging to help customers boost the added value of their sales. The company knows that catching the attention of customers is critical, and has come up with refreshing ideas for packaging that effectively raises the visibility of the products in the spacious display aisles of big-box wholesalers.

The company's inspiration for its eye-catching packaging design comes mainly from customers' needs, which are determined by their specific situations. For instance, the company's ready-to-display packaging is tailored to address buyers' concerns about the rising cost of raw materials, as well as meet the need to cut labor input for buyers who want simply to deliver pre-packaged products to retailers.

Commitment to Quality and R&D

Chang Loon places strong emphasis on product quality, and its ratchet wrenches boast a higher torque rating and stronger structure than those of competing models that meet international standards, such as ANSI and DIN. This achievement is a result of the company's effective production system and rigid quality control.

To secure a supply of raw materials with dependable quality, Chang Loon uses steel only from Taiwanese suppliers and pays special attention to heat treatment, which is a key to a sturdy structure and long service life. Advanced testing instruments, including precision projectors and tension testers, assure that quality-control standards measure up.

Commitment to R&D is another factor that has enabled Chang Loon to survive and prosper amid the underselling rivalry by competitors from emerging countries.

To make sure that the development process is carried out properly and in line with up-to-date information and market trends, the company's management and supervisory staff form part of the R&D team to play an active role in every R&D decision.

Chang Loon also assures that its R&D projects will be successful by providing newly-developed hand tools to users on a trial basis and then, based on their feedback, rounding off their rough edges. This goes on until the tools are ready for launch; it is a costly process, but it allows the company to fine-tune its products until they are perfect.

The company has brought in an advanced 3D prototyping machine, which is fully computerized and provides a high degree of precision, to speed up development and make sure that prototypes take shapes in accordance with draftings and drawings.

R&D Materialization for Enhanced Brand Recognition

All of these features help to give Chang Loon a basis for the development of its ProRatchet® into a well-recognized brand name among customers worldwide. Unlike other companies that focus on volume alone, however, the company aims to achieve brand-recognition globally by dedicating itself to innovation that differentiates its products from others on the market.

One way Chang Loon sharpens its brand recognition is to make the heads of its ratchet wrenches thinner and lighter than those of competing models, so that they are readily recognizable.

A patented design feature of Chang Loon ratchet wrenches is a colored ring embossed on the head that clearly shows the size of the wrench in Imperial or metric units, effectively preventing users from wasting time searching for wrenches of the sizes they need.

Despite the development of a hand tool's functionality having hit its ceiling, Chang Loon will continue to take advantage of R&D to build value-added features into its products through packaging, exterior appearance, and function. CENS

Chang Loon's ProRatchet® family includes 36- and 72-tooth high-precision gear wrenches.

A unique external design makes Chang Loon's wrenches easily recognizable.

Ing-Hwei Implements Mfg. Corp. has been manufacturing specialized hand tools for over 26 years. Single-sided wrenches have been replaced by double-sided wrenches as the company's foremost products, due to the convenience of the latter. The tools from Ing-Hwei passed the German DIN certification process and are quite able to contend with those of prominent rivals. Half of the company's business goes to ...

CHANG LOON INDUSTRIAL CO., LTD.

Bolt Cutter, Cutter, Gear Wrench, Pro Gear Wrench, 72-teeth Ratcheting Combination Wrench, Tin Ship & Aviation Snip

With some three decades in R&D and fabrication of hand tools, Chang Loon aggressively develops and offers innovative, patented items to meet changing market demands in addition to offering professional-grade ratchet wrenches and bolt cutters. Promoted globally under ProRatchet® and High Tensile brand, the aforementioned are well designed to feature higher user-friendliness, safety and labor-efficiency than conventional models. We also offer wide-ranging product lines, including professional-grade ratchet wrenches, 3-in-1 cutters and aluminum-alloy bolt cutters that are patented in Taiwan, Southeast Asia, the U.S., and Europe. Knowing that technology upgrading and going global are keys to enhancing corporate value and sustained competitiveness, our president, Chang Chung-hsing, employs the latest processing technologies and concepts from Japan and ...

The Taiwanese tools industry in its early stages focused primarily on original equipment manufacturing. After accumulating broad knowledge of the industry and polishing technical production expertise, Mark recruited his family members in related fields to create the brand, now known worldwide, as Genius. With its roots in Taiwan, Genius quickly developed in much of Asia and Oceania. Over the years, the business grew into the American and European markets. Today, Genius Tools has become an international company with offices and warehouses strategically located around the globe, allowing us to efficiently distribute our products to over 80 countries. Our commitment, at Genius Tools, is to provide reliable professional grade tools offered at exceptionally reasonable prices, providing our customers with the smarter choice. Continuing to deliver industry leading quality and best in class customer experience, Ge ...

KING LUGGER INC.

Ratchet Adjustable Wrench, Hex Key Wrench, Star Key Wrench

King Lugger Inc was set up in 1975 to produce hexagonal key wrenches. We are a pioneer in the field and the largest hexagonal key wrench manufacturer in the northern part of Taiwan. We provide our customers with superior products. The quality has been established through years of experience in this field, especially in terms of the thermo-process and research in metal characteristics, which ensures that our products comply with all kinds of specifications and requirements. Over the years, we have constantly put new investment into modern plants and technology. We received GS approval for the hex key wrenches in 1985. Additionally, we have strong R&D capabilities with more than 10 years of OEM experience to provide both aesthetic and technical services to our

LEADER UNION ENTERPRISE CO., LTD.

Hand Tools, Smart Hand Tools, Screwdrivers, 9pc Quick-release Drill & Bit Set, 4pc Bolt-out Set, Angle Ruler

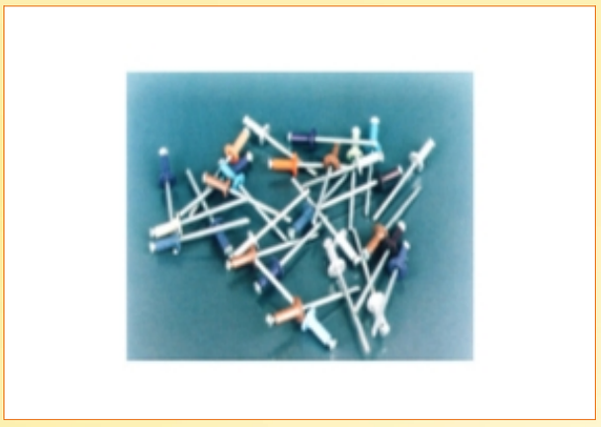

Patented hand tools Leader Union Enterprise makes various hand tools that are trusted by buyers in quality focused markets in France, Germany, Italy and the UK. But we don't just make any ordinary products. Our screwdrivers, for example, are made with patented reversible shanks that have uniquely designed tips. With a Phillips, Pozidriv or flathead tip, each end turns five different screw sizes without slipping. More durable materials Our R&D staff members, many with 31 years of experience, design our items with materials that provide better durability. Competitors commonly use inferior chrome vanadium in bolt-removal sockets, but we use chrome molybdenum which gives our tools greater tensile strengths. And our ergonomically designed tool handles and shafts are fashioned with Taiwan-produced S2 steel for added durability. 15 years of production experience With over 15 years of design and production

STAND TOOLS ENTERPRISE CO., LTD.

Magic Magnet Hand Tools, High Torque Ratchet Screw, Driver & Rack Set, Automatic Magnetic Pick-up Tray, Hand Tools, Magnet

STAND TOOLS was established in Taiwan since 1988. Because of persevering, training, acting, not excusing the failure, looking for better quality and R&D, STAND TOOLS was successfully building a perfect beginning. Although there are few resources, STAND TOOLS has stepped steadily due to the accomplishments of new products introduced into the market fast and efforts of all staff and researchers. In order to manufacture products efficiently, increase the quantity of output, and improve the working environment, STAND TOOLS moved and extended the factory in 1996. It was the serious time since devaluation of New Taiwan Dollar. However, STAND TOOLS was not only passing the depression but also keeping the sales growth. Moreover, because of the new 6000 square factory, STAND TOOLS can improve the quality, ...

FIST WAY INDUSTRIAL CO., LTD.

Wire Stripper, Crimping Tools

Fist Way Industrial Co., Ltd., established in 1986 in Taiwan's central county of Changhua, has been engaged in production of wire strippers and crimping tools. The company's high-caliber cutting pliers are made of the finest stainless steel and feature comparatively sharp blade edges, which have been specially processed to achieve better structural durability. Noteworthy is that the pliers can be used to cut strings, fishing lines, plastic products and iron wires with a diameter of 1.6mm, and can serve as electronic diagnostic cutting pliers and a nail clipper. The pliers have been patented in many countries for its innovative functionality. The cutting pliers are available in two different sizes, with the handles also having two optional colors, suitable for both DIY and professional uses.

Hand tool kits

Established in 1976, YUN CHAN Industry Co., Ltd.has continually provided professional, customer-friendly service and superior quality products to our worldwide clients. We are the leading manufacturer forstable and industrial quality screwdriver bits, screwdrivers, allen key, impact driver, nut setter, bit holder and ratchet drivers. We have our own complete production line, and all products from YUN CHAN are 100% made in Taiwan with high-grade material such as either S2-steel or top-grade German S2-steel. All of our bits and screwdrivers are produced to qualify the DIN/ISO standard and were certified with the TUV quality inspection system since 1991. Furthermore, to maintain our products with high-level quality, we introduced Asia's one and only torque test machine made by Schatz in Germany in 1999, which along with three in-house Schatz-certified inspectors, also makes the standard of o ...

About Us Above ACT established in 1996, few would have guessed to what heights ACT Quality Industrial Co. Ltd. and its trademark ACT would rise. Since its conception in 1996 ACT has become a leading global manufacturer, marketer and distributor, and ACT, under its vice, molded into a globally recognized symbol of power, precision and fortitude. Quality does not ring true enough for these professional hand tools and auto repair equipment forged in the bowels of ACT. Those who wield ACT never turn back. That is praise enough. Crafting with ACT is crafting for life. Our emphasis on guaranteed lifetime craftsmanship is what places us a cut above the rest. Gone are the days of continued investment in faulty equipment. ACT design looks back to a time when things were bought once and expected as inheritance. ACT’s mission is to make common place once more this luxury of assurance and everla ...

APACH INDUSTRIAL CO., LTD.

Air Nailer, Stapler, Air Tools, Woodworking Small Machine, Apach, Staplers, Nailers, coil nailers, framing nailers, finish

Apache is an Indian tribe in North American , according to legend , Apache was a warrior , who was brave and invincible and has been symbolized by Indians as an image of bravery and victory. This tribe has also been known for being intrepid and valiant in the Indian history. Therefore, posterity use his name for the Indian tribes named ã€‚Inheriting this tribe's spirit, Apach has been constantly devoted to developing and making top-end tools since its inception. Therefore, Apach exquisitely designs each of its nailer guns, and insists on strict durability testing of every piece of key components and parts, as well as rigid pre-delivery inspections of finished products. Just like Apache Indians who are physically strong and capable, Apach's products are durable and can endure under harsh working environments, and therefore are highly recognized and soug ...

MAXIMUM ELECTRONIC CO., LTD. was founded to set up a factory in Tainan, Taiwan in 1978 by several Taiwan experts in the electronic industry to produce temperature controller and thermo-couple. Our products are highly evaluated in Taiwan and in more than 100 countries all over the world. In 1988 due to the enlarging size of the domestic thermo-couple market, our company launched another branch, More Shine Electronic Heat Co., Ltd., which produces all kinds of thermo-couples and probes, serves as an agent for Japan companies to import materials from Japan. In 1989 we further expand our production base to Southeastern Asia and set up a factory in Thailand, a move which have gained admiration from local electronic ...

Asia's Leading Premium Hardware Show

Taiwan Hardware Show is known to provide high quality and innovative products to visitors around the world. Located at the center of Taiwan's largest and most important hardware industry cluster, visitors can get a first-hand impression of their potential business partner's capabilities, making this a perfect one-stop-sourcing platform for industry professionals.

Why Exhibits?

- THS is divided into 8 categories: Tools & Accessories, Locks & Fittings, Fasteners & Fittings, Building Supplies, Garden & Outdoor Equipment, Automotive Supplies & Accessories, Machines & Plant Equipment, and Safety Equipment & Products.
- Exhibit along some of the most prominent companies in the center of Taiwan's hardware industrial cluster.
- "One-Stop Sourcing Platform" allows industry professionals to find the ideal products and visit the production line in one trip.
- THS offers accommodation and airport pickup subsidy of NTD 15,000 per person for professional buyers visiting Taiwan Hardware Show.
- Meet target buyers through exclusive matchmaking services.

VISITOR STATEMENTS

Satyendra Jadon, Managing Director, Pace Assembly Tools, India

This is the first time I come to this show...I'm looking for new product and new technology, the market is changing and we need to get ourselves upgraded with new technology, to find out if I can find some better products...Yes, sure, I would like to come back again next year.

Paolo Amos (left) Presidente / Markus Renz (right) Purchase Manager, ABC Tools S.p.A., Italy

We are looking for handtools cutting tools, all kind of tools, professional quality... We decide to come to see if the show is worth the long trip, and after one day, we decide that it is worth the long trip.
