Our healthy, natural, beautiful Unique Inkjet Pinting Color Door will be the better option for your home......

To achieve the best quality, Unique has introduced the latest surface treatment technique from Europe for the hyper realistic effect. The vibrant Unique Inkjet Printing Color Door is digital printed by 7-Color Ink with up to 1024x1024 dpi resolution. The delicate surface finish keeps the natural texture as well. Customized patterns are also available. Our products are chemical resistance and examined by SGS to ensure they are free of formaldehyde, also meet the European RoHS compliance, free from 6 hazardous materials including lead, mercury, cadmium, hexavalent chromium and PCB. Unique Inkjet Printing Color Door is water-resistant, termite repellent. They are perfect for both bedrooms and lavatories. Unique Inkjet Printing Color Door is completely recyclable. It presents the authentic wooden look but environment friendly.

Moisture-Proof, Water-Resistant, Termite Repellent

Low water absorption (0.5 $\%\downarrow$). Our products will not deteriorate under humid conditions for long periods of time and thus are suitable for the sub-tropical climate like Taiwan.

Self- Extinguishing

Our products meet the US UL94- V0 and CNS 7614 level-one fire resistance.

Low Heat Conduction, Good Electric Insulation

Our products feature nice thermal insulation, heat preservation and sound isolation.

Grease and Chemical Resistant

Our products are not corroded by generic acids, bases and oils.

Environment Friendly

Our products are completely recyclable without polluting the environment.

Safety

- 1. The ink imported from Europe is free from hazardous, heavy metals, halogens. PBBS or PBDES is not used during the manufacturing process in compliance with European standards.
- 2. Our products are certified by SGS as free from formaldehyde and reach the accreditation standard for low-emission healthy materials, suitable for indoor use.
- 3. The ink meets A+ level (very low emission) of the French VOC Label (Émissions dans l'air intérieur)

Chemical Performance Specifications
