1. Powerful motor of 6.3KW for professional drilling.
2. Patented Water Cooling Motor.
3. Patented Smart Control System:
 - A. Constant Voltage Sensor.
 - B. Two Step Feeding Mode: Soft Start Feeding Mode + Anti-Vibrate Mode.
 - C. Carbon Brush Wearing Detector: Light-On-replace the carbon brush.
 - D. LED Current Indicator.
 - E. Torque Protection Device.
4. Built in adjustable slip clutch system, to protect the operator and machine.
5. Feeding Insulation design, protect from drilling to electricity wire.
