TAIWANESE  
MANUFACTURERS

LOOK FORWARD TO CONNECTING WITH GLOBAL BUYERS

At TAPA 2025, Economic Daily News (CENS.com) has brought together 36 Taiwanese manufacturers eager to share their expertise. Taiwan's automotive parts industry is respected for its high-mix, low-volume production, exceptional quality, and prompt delivery. These manufacturers are committed to offering refined products and services while building lasting, genuine partnerships with buyers around the world.

ZUNG SUNG ENTERPRISE CO., LTD.

## ISO-Certified Zung Sung Unveils Patented G552L-BUZZ LED Flasher

• Kuo Fang-lin

Founded in 1989, Zung Sung Enterprise Co., Ltd. has established itself as a premier auto parts manufacturer in Taiwan, earning ISO 9001:2015 certification for its commitment to quality. The company specializes in producing

*G552L-BUZZ LED Flasher operates within a voltage range of 1.5V to 15V and can be used with LED lights. (Photo courtesy of Zung Sung)*

flasher relays, LED flashers, circuit breakers, and solenoid starter switches, leveraging over three decades of manufacturing expertise and state-of-the-art equipment to deliver exceptional OEM and ODM solutions.

Among its innovative product lineup, the patented G552L-BUZZ LED Flasher stands out, having secured patents in both the United States and Taiwan. This advanced device operates within a voltage range

of 1.5V to 15V and can be used with LED lights. It incorporates a built-in buzzer for added functionality and offers robust performance with a rated current ranging from 0.5A to 12A and a maximum power capacity of up to 150W.

Its products, sold worldwide, reflect a strong reputation in the global auto parts market; further details about the company and its offerings can be found on its official website, [www.zungsung.com](http://www.zungsung.com).

## SamsoPRO: Precision, Innovation, and Sustainability in Hand Tools Manufacturing

• Tzeng Lung-Nan

With over 30 years of expertise, SamsoPRO has established itself as a leading manufacturer of high-quality hand tools in Taiwan. Equipped with an in-house molding and injection division, the company ensures precision, efficiency, and innovation throughout its production process. As an ISO 9001-certified manufacturer, SamsoPRO remains committed to cutting-edge technologies and advanced equipment, delivering comprehensive solutions that meet the evolving demands of the global market. SamsoPRO's R&D team and in-house molding division play a pivotal role in product development. By conducting early-stage feasibility studies, the company streamlines

the design process, minimizes uncertainties, and significantly shortens development lead times. This approach ensures exceptional accuracy and consistency in mass production, allowing SamsoPRO to deliver high-performance, user-friendly tools tailored to customer needs. With a focus on innovation, market adaptability, and environmental responsibility, SamsoPRO provides a comprehensive one-stop service—from design and molding to production, assembly, and packaging. Its extensive product portfolio includes: Knockout Punch Sets, Air Blow Guns, Screwdrivers, Precision Tools, Toolbox Sets, and Tool Racks. In response to industry advancements,

SamsoPRO has embraced automated production, investing in energy-efficient equipment, robotic arms, and device networking to enhance manufacturing efficiency and cost-effectiveness. This commitment not only boosts production capacity but also strengthens partnerships with customers by offering high-quality, competitively priced solutions. Driven by a vision of professional excellence and environmental responsibility, SamsoPRO remains dedicated to developing innovative, value-driven hand tools that enhance both work efficiency and sustainability. *Tornado Nozzle Air Blow Gun with rotating hose that can generate strong pulse airflow. ## Tai Cheer's High-Quality Steel Ball Slide Rails Earn International Acclaim

Tai Cheer offers a diverse range of steel ball slide rails, spanning light-, medium-, and heavy-duty models. Notably, the heavy-duty variants boast an impressive maximum load capacity exceeding 500 lbs. These slide

Currently, Tai Cheer operates four manufacturing plants strategically positioned in central Taiwan. Three of these plants are situated in Huwei and Tuku townships of Yunlin County, with the fourth located in Tastun of Changhua County. Demonstrating a commitment to quality and environmental standards, the company proudly holds ISO 9001:2015 and ISO 14001:2015 certifications. Spanning an impressive 23,141 square meters across these facilities, a cohesive network of 100 production lines operates

## HPMJ Launches Smart Display Jump Starter for Heavy Vehicles

HPMJ has recently launched the V4-20AH Jump Starter, a 12/24V Booster. This innovative product features newly developed voltmeters that display numbers on the

The V4-20AH Jump Starter uses 20AH high-efficiency batteries. To extend battery life, the 24V charging system is adapted to 12V charging, employing two batteries simultaneously to balance the charging process. This ensures a stable output current, doubles the 12V output power, and extends battery life. The V4 batteries, equipped with display lamps and an automatic power-off device, can be fully charged when not in use and prevent overcharging and overheating. These are low self-discharging batteries with long standby times, capable of starting a vehicle even after a month of inactivity.

*HPMJ develops a range of battery-related products, including jump starters, emergency power packs, super-mini boosters, solar batteries, emergency starters, emergency power supplies, and battery boosters. (Photo provided by HPMJ)*

The V4-20AH Jump Starter's current output uses a self-developed MPP high-current overcurrent connector (patented in Taiwan), achieving a power overflow rate of up to 90% when starting a vehicle. Additionally, when the connector is not plugged into any socket, the clip has no power output, ensuring safe placement. This product is suitable for four buses, container trucks, excavators, semi-trailer trucks, military tanks, heavy-duty construction vehicles, and large agricultural machinery.

HPMJ develops a range of battery-related products, including jump starters, emergency power packs, super-mini boosters, solar batteries, emergency starters, emergency power supplies, and battery boosters. These products address power shortage issues, providing emergency lighting, USB charging, power supply, and roadside assistance. With 94 patent certificates, HPMJ welcomes OBM and ODM partnerships for overseas exports.

TAIWAN WINCH INDUSTRIAL CO., LTD.

# Procure Quality and Efficient Electric Hoists from Taiwan Winch

• Kuo Fang-lin

Taiwan Winch Industrial Co., Ltd. is a renowned manufacturer specializing in a range of electric hoists, including AC winches, compact winches (170kg~500kg), electric chain hoist (250kg~2000kg), and electric wire rope winches with lifting capacities ranging from (200kg to 5000kg).

Leveraging outstanding R&D capabilities and extensive industry experience, the company has crafted a comprehensive selection

of electric hoists suitable for applications in construction, households, brick-and-mortar stores, and factories. Taiwan Winch maintains a strong commitment to delivering the best electric hoists to its customers, ensuring a consistently high level of quality and performance for each product in their lineup.

Taiwan Winch's electric hoists have gained widespread recognition and customer acclaim both domestically and internationally. The excellence of Taiwan Winch's products can be attributed to their unwavering commitment to technological research and development. The R&D department,

with a keen focus on market trends, not only introduces new electric hoists but also strives to elevate the performance levels of existing product lines. The overarching objective is to continually enhance each electric hoist from Taiwan Winch, ensuring the best possible performance and efficiency for their customers.

Maintaining a commitment to quality has been a longstanding tradition at Taiwan Winch since its establishment. The company upholds this commitment by implementing a total quality control system, meticulously overseeing quality at every stage of the hoist manufacturing process.

Stringent and comprehensive quality inspections are conducted before shipment, ensuring that each product from Taiwan Winch consistently upholds high standards of quality and maximum dependability.

Taiwan Winch features electric hoists of various types. (Photo courtesy of Taiwan Winch)

## TAPA 2025 Set to Showcase Global Auto Parts Innovation

For over two decades, the Thailand International Auto Parts and Accessories Show (TAPA) has cemented its reputation as a premier global event, bringing together top-tier manufacturers, suppliers, and industry leaders in automotive parts and accessories. As a vital sourcing hub, TAPA continues to create unparalleled opportunities for networking, collaboration, and business expansion.

Thailand remains ASEAN's largest automotive manufacturing and export center, ranking as the world's

12th-largest automobile producer. The country supplies a vast array of high-quality, internationally certified vehicle components, with annual auto parts exports—including tires—valued at US\$20 billion. Key export destinations include the United States, Japan, Indonesia, Malaysia, and China, reinforcing Thailand's position as a critical player in the global automotive supply chain.

Under the theme "Sustainable for the Future," TAPA 2025 spotlights the industry's commitment to sustain-

ability, addressing the evolving demands of modern automotive technology. The exhibition spans 20,000 square meters, featuring more than 500 international manufacturers and welcoming over 10,000 visitors from around the world. Exhibitors present a diverse range of automotive innovations, covering essential categories such as engines and transmissions, brake systems, steering systems, body parts, electrical and electronic components, suspensions, and interior and exterior accessories.

This year, the Taiwan Pavilion, organized by Economic Daily News/CENS, showcases 37 leading Taiwanese manufacturers across 40 booths. Among the key exhibitors are Cheng Mao Precision Sealing Co., Ltd., a specialist in oil seals; Singform Enterprise Co., Ltd., a leading manufacturer of car floor mats; Torque-Tech Precision Co., Ltd., a producer of precision torque wrenches; Shin Ding Cheng Enterprise Co., Ltd., a supplier of high-performance brake pads; Chin Pech Co., Ltd., known for its wind-

shield wipers; Casp Auto Parts Co., Ltd., a trusted provider of automotive lamps; Yuholi Co., Ltd., an expert in hydraulic brakes; Well Buying Industrial Co., Ltd., a fabricator of automotive switches; Ing-Tien Enterprise, which specializes in automobile engine cylinder mattresses; Ken Sean Industries Co., Ltd., a prominent manufacturer of car mirrors; and Pro Fortune Industrial Co., Ltd., a leader in plastic automotive parts.

In addition, Economic Daily News/CENS hosts a booth at EH 101-B37, where it distributes TAPA 2025 Show Express along with a range of industry-specific publications, including the latest edition of the Taiwan Transportation Equipment Guide (TTG) in print and USB e-book formats, as well as Taiwan Hand Tools. To further facilitate business connections, CENS provides real-time matchmaking services, enabling professional buyers to engage directly with Taiwanese manufacturers and explore potential collaborations.
