## 公司簡介 Company Profile

本公司發跡於民國60年，專精於五金工具及機械零件之鍛造毛坯成型。民國80年期間，因客戶需求，增加了汽車、機車等鍛造產品項目。轉而進階採用「精密閉模鍛造」製程，在形狀、尺寸公差及表面加工之製造精度皆超過正常的要求，如此使得至少可以減少、省略一次或數次以上的機械加工工程，以達到節省原物料，降低加工成本...等成效。

本公司生產產品大類項目有:、汽車零件/機車零件/五金、機械零配件/船舶零件/割草機零件等，更包含精密齒輪、滑塊、傳動軸、曲軸、平衡軸、連桿...，加工材質包括:碳鋼、合金鋼、不鏽鋼。

爾後為了追求更高的品質保證，於民國92年通過ISO 9001:2000之認證。並因應市場及達到國際標準規範，又於民國97年擴廠遷移至霧峰現址，另一方面為了提升製程能力，更增設大型沖壓成型鍛造機械。目前本公司最大產能為100萬只/月，鍛品重量100g~15kg。承製範圍由模具設計製造、鍛品製造，增加至成品加工完成階段。並於民國98年通過國際TS16949之認證。

不間斷的往前邁進，只為了提供客戶最完善的服務，並因應市場需求，投入檢測設備，有光學投影機、洛氏硬度試驗機、三次元量測儀、渦流檢測儀、磁粉探傷機、紅外線測溫器、金屬分析分光儀。

良好的品質與服務,是貫煜最終目標,歡迎客戶OEM 及ODM!

The company was founded in 1971 , The company mainly manufacture hardware tools ,mechanical part and forged parts. The effect of cooperating with different customers has open our company to other market areas in which we started to produce automobile parts, motorcycle parts. In order to lower costs, we started to use the closed-die-processing in order to produce parts and accessories. As a result of our new we production method we could improve the product's tolerance and surface treatment.

Our main products are automobile/motorcycle/metallic parts, mechanical parts and accessories, watercraft/lawnmower parts, precision gears, slide blocks, transmission/drive shafts, crankshafts, balance shafts, connecting rods etc. we have experience with different materials as: carbon steel, alloy steel and stainless steel .

To insure product quality, we got the ISO 9001:2000-certified in 2003. In 2008 we moved to a bigger factory at Wufong District in Taichung because of business strategy, market requirement and to meet international standards. We could also increase our productivity with larger pressing and forging machines. We had maximize our capacity to million parts per month, and forging parts weight from 100g to 15kg . We also improved mold design /manufacture and from manufacture only forge parts to finish parts. In 2009 our factory received TS 16949-certified.

Upgrading facilities and know-how steadily, we focus on offer customer better services. With market requirement, we imported testing instruments as optical projector, Rockwell hardness tester, 3D Measuring Machine, eddy current tester, magnetic-particle testing machine , infrared thermometer and Optical Spectrometer.

Our final purpose is offering good product quality and service. Welcome to make OEM and ODM orders.

未來展望及競爭優勢 Prospective future and competitive edge

- ◎ 專業的品質 Professional quality
- ◎ 優質的創意 Unparalleled creativity
- ◎ 誠心的服務 Accountable service
- ◎ 完美的團隊 Outstanding teamwork
- ◎ 卓越的效能 Super-high efficiency

貫煜工業股份有限公司至成立以來不斷秉持著【品質高、效率高、顧客滿意度高】之三高政策不停鞭策自己；也抱持著【用心、貼心、專心、細心】之四心服務，不曾間斷的服務著所有的客戶。因為有你們的支持，才有今天的我們，當外界還在瞬息萬變的同時，我們依舊踏著穩健的步伐，朝著短期、中長期之目標邁進，永續經營，放眼國際是我們全體員工共同目標。

GuanYu insists on high quality, efficiency and customer satisfaction after founding the company.

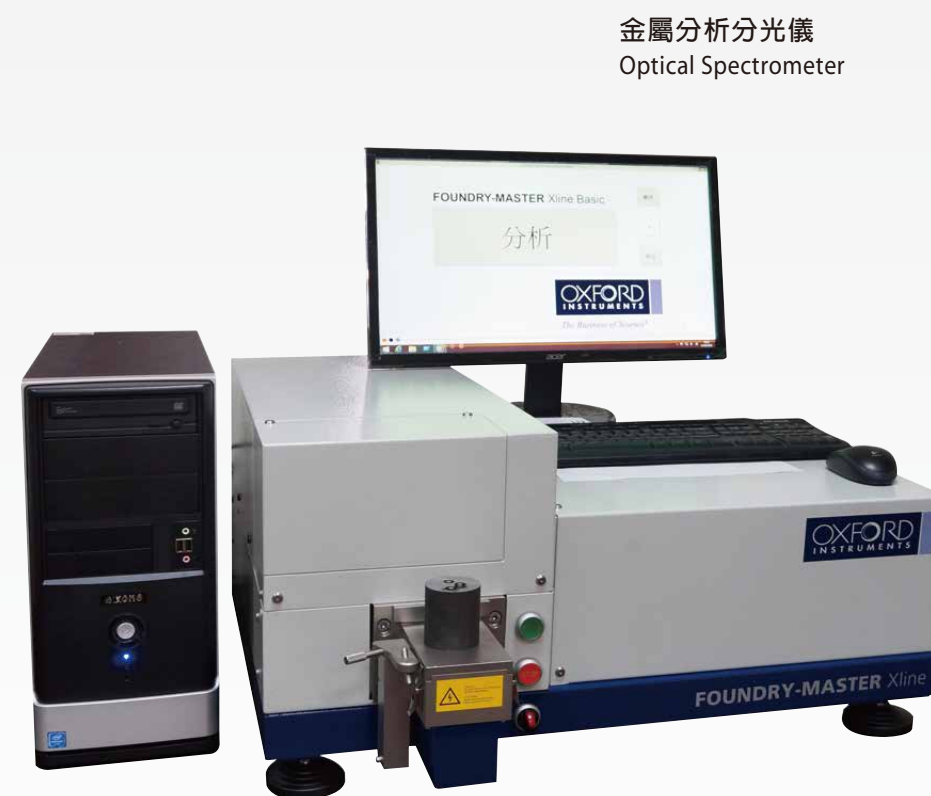

We offer services which pay an attention to consideration and carefulness wholeheartedly. Trust and support from customers makes us who we are today. Our target is achieving to our short, mid and long-term goals steadily. Also keep the competition in the global market.

## 生產設備 Production Equipment

## 檢驗設備 Inspection Equipment

金屬分析分光儀  
Optical Spectrometer

超音波探傷機  
Ultrasonic Flaw Detector

投影機  
Profile Projector

洛氏硬度機  
Rockwell hardness - tester

三次元量測儀  
3D Measuring Machine

磁粉探傷機  
Magnetic Particle - testing Machine

## 主要產品 Main Products

汽機車凸輪軸類 / 汽機車齒輪類  
AUTO, MOTORCYCLE CAMSHAFTS /  
AUTOMOTIVE, MOTORCYCLE GEARS

機械類  
MECHANICAL PARTS

機械加工  
MECHANICAL WORKOUT

## 生產流程 Production Flow
